# HONEYWELL UVEX GENESIS EYE PROTECTION

Uvex Genesis is engineered with a wrap-around g-base uni-les style to deliver on the best all-day comfort and protection. It is built with MMT—Multi-Material Technology and features dual-action hydrophilic and hydrophobic HydroShield® Anti-Fog Coating lens. Uvex Genesis has 2X greater scratch resistance and offers lifetime guarantee. Certified to meet ANSI Z87.1-2015 (High Impact) and CSA Z94.3 2015 standards

## HONEYWELL UVEX STEALTH SAFETY GOGGLES WITH CLEAR HYDROSHIELD ANTI-FOG LENS, GRAY LOW PROFILE FRAME & NEOPRENE HEADBAND (S3960HS)

The HydroShield coating features dual hydrophilic and hydrophobic properties that keep lenses clear up to 60 times longer than our next best coating. A pivoting, quick-adjust neoprene headband allows for a customized fit and longwearing comfort on the job. Lens replacement is easy and economical. Safe and durable, these goggles meet ANSI Z87.1-2003 and CSA Z94.3 standards.

**Recommended Industries/Use:**

- Chemical Construction
- Law Enforcement
- Manufacturing
- Mining
- Municipal Services
- Oil and Gas
- Pharmaceutical
- Steel and Metals Transportation
- Utilities

**Hazards:**

- Abrasion
- Airborne Particulates
- Biohazard
- Chemical
- Impact
- Low Visibility
- Splash

# HONEYWELL UVEX TIRADE™ SEALED EYEWEAR

## Performance Features

- Indirect ventilation channels on the foam and subframe provide superior dust filtration keeping debris out of the eyes
- Frameless, unilens design allows for wide-field peripheral vision
- Quick-release hinge system converts easily from temples to headband
- Removable temples and standard adjustable headband included. Hypoallergenic latex-free option available
- 100% Non-conductive dielectric design. Can be worn in environments where accidental exposure to electrical charge is possible
- Uvextra® anti-fog coated lens reduces fogging, keeping lenses clear

## RECOMMENDED INDUSTRIES/USE:

- Agriculture
- Construction
- Food Services
- Forestry
- Manufacturing
- Mining
- Oil and Gas
- Steel and Metals
- Utilities
- Wind Energy

## REGULATIONS:

- ANSI - Meets the ANSI Z87.1-2010 standard
- CSA - Tested by Honeywell to meet the requirements of the CSA Z94.3 standard
- Not for chemical splash applications

## HAZARDS:

- Airborne Particulates
- Impact

## RECOMMENDED INDUSTRIES/USE:

- Construction
- Manufacturing
- Medical

## HAZARDS:

- Impact

## PERFORMANCE FEATURES

- Sport-inspired shaping provides a stylish fit for the everyday worker
- Lightweight, flexible temples with padded tips provide a secure, wraparound fit and all-day comfort
- Molded universal nose bridge provides a comfortable fit
- 9-base polycarbonate hard coated lens provides a 180° field of distortion free vision
- Slim size models are a full 10% smaller; designed to fit smaller or narrower facial profiles
- Provides 99.9% UV protection
- Meets ANSI Z87.1-2010 and is certified to the requirements of the CSA Z94.3 standard.

# HONEYWELL UVEX XV100 SERIES SAFETY EYEWEAR

**XV100**

**XV101**

## FEATURES & BENEFITS

- 10-base, wrap-around uni-lens for great peripheral vision and protection
- Molded, universal nosepiece for easy fit
- Lightweight design and thin, shaped temples for all-day comfort
- Anti-scratch Hardcoat lenses for maximum durability
- Meets ANSI Z87.1-2010

## PRODUCT USE:

- General use and protection against impact (45m/s)
- Well suited for applications such as utilities, light & heavy manufacturing, bio tech, ship building, construction and automotive manufacturing

# Honeywell Uvex Clear® Plus Towelettes

**S470**

- Swiftly lifts and removes dirt: dust: debris: oil
- Reduces visible soil to below detectable limits (.2 to .3% haze)
- Streak-free: residue-free: haze-free results
- Alcohol and silicone-free
- Methanol: ethanol: and isopropanol-free
- Butoxyethanol-free
- Pleasant smell from all-natural papaya extract
- Safe to use on any lens or coated surface
- Won't degrade or delaminate lens material
- Can be used in temps as low as -40°C (-40°F)
- Proprietary formula
- 5 year shelf life

# HONEYWELL EAR PROTECTION

# HONEYWELL VERISHIELD 100 SERIES HEARING PROTECTION

1035192-VS

1035200-VS-LA

1035202-VS-LA

## VERISHIELD VS100 SERIES FEATURES AND BENEFITS

- **Large dimension range:** Comfortably fits a wide range of head sizes. 17% more adjustable than earlier versions.
- **Wide cup opening:** Ideal for workers with larger ears: or who wear hearing aids. Opening area of the cup increased by 16% over earlier versions.
- **Lightweight cushioned headband:** Steel-wire construction with padded headband and precision micro adjustments designed for just the right fit around the ear.
- **Memory foam ear cushions:** New unique memory foam that combines denser and softer foam than previous models: for greater comfort and attenuation. Reduces squeezing pressure on the head and enhances comfort.

NRR	PART#	DESCRIPTION	USE
33	Max-1	Max, uncorded, disposable earplugs	An economical and convenient choice for work situations that demand a high degree of comfort or where hygiene presents a problem for reuse. Formable foam is also THE material of choice when highest attenuation is required.

NRR	PART#	DESCRIPTION	USE
25	SMF-30	Smart-fit, detachable cord (Personalized fit), Reusable earplugs	Ideal for environments where employees can retain and store earplugs for reuse over time, reducing waste and saving money

**HONEYWELL FALL  
PROTECTION**

# D-BOLT ANCHOR

PART#	DESCRIPTION	USE
416/	D-bolt Anchor for up to 102 mm (4 in) working thickness, includes a 16 mm (5/8 in) diameter bolt with lockwasher and nut	Used to join the connecting device to the anchorage

# HONEYWELL MILLER TEMPORARY ANCHORAGE CONNECTOR

PART#	DESCRIPTION	USE
8183/6FTGN	1 .8 m (6 ft) web Cross-Arm Strap wraps around I-beams and other structures and attaches with a 51 mm (2 in) D-ring that slips through a 76 mm (3 in)	Rated for up to a 400-lb. worker

PART#	DESCRIPTION	USE
8814-24/	Lightweight, sliding Shadow Beam Anchor – stainless steel & high-strength aluminum Fits flange sizes: 305 mm to 610 mm (12 in to 24 in) Maximum flange thickness: 63.5 mm (2 1/2 in)	Used to join the connecting device to the anchorage Honeywell Miller Shadow Sliding Beam Anchors connects horizontally to a wide range of I- and H-beam flanges. Once attached, the beam anchor (SKU 8814) slides along the beam with the worker to provide increased safety, mobility, and productivity.

# HONEYWELL MILLER 6 FOOT, SINGLE TURBOLITE PERSONAL FALL LIMITER

Cost-effective, compact, and lightweight, Miller TurboLite Personal Fall Limiters make the need for shock-absorbing lanyards obsolete.

- Reduces fall clearance requirements
- Extremely compact and lightweight, comparable to a shock-absorbing lanyard
- Attaches directly to the back D-ring of a harness for increased mobility
- High-impact nylon housing and abrasion-resistant webbing
- provide a long service life Integral swivel prevents lifeline from twisting
- Rated for up to a 400 lb. (181.4 kg) worker
- Twin models available for 100% tie-off

PART#	DESCRIPTION	CERTIFICATIONS
MFL-10-Z7/6FT	1.8 m (6 ft) Model Unit Connector: Steel Locking Snap Hook Lanyard End Connector: Steel Locking Rebar Hook Weight: 1.6 kg (3.6 lb). The critical link which joins the body wear to the anchorage/anchorage connector	Meets OSHA 1926.502, 1910.66, ANSI A10.32-2012, ANSI Z359.14-2012 Class A and B, CSA Z259.2.2 Type 1 requirements

# HONEYWELL MILLER 6 FOOT SINGLE TURBOLITE FLASH PERSONAL FALL LIMITER

## DESCRIPTION

Miller TurboLite™ Flash Personal Fall Limiters are specifically designed to protect users who are working at height while being exposed to arc flash hazards or working in hot work applications such as welding or high heat areas. Models are available in a wide range of lengths and configurations – including single and twin versions, tie-back options, and even products specially designed for users working in bucket trucks.

## FEATURES

- An all-in-one solution for Arc flash and hot work applications
- High impact housing with integral shock absorber
- Rated for up to a 420lb. (189 kg) weight capacity for all connections down to foot level.
- Great Mobility: Swivel connectors allow for excellent maneuverability in any working environment.

## RELIABILITY

- The durable Kevlar/Nomex webbing withstands arc flash testing of 40 cal/cm<sup>2</sup> as well as weld splatter and contact with high heat surfaces.
- Enables quicker, easier installation
- Meets the most stringent safety standards: including ANSI Z359.14 and ASTM F887

## MATERIALS:

Shock Absorber Cover: Kevlar®/Nomex®1, and CarbonX®

Quick Connect Harness Connector: Anodized aluminum

Housing: High impact nylon

Hub: Aluminum

Braking Mechanism: Stainless steel

Lifeline: Kevlar®/Nomex®1 Miller

N.B: DuPont™, Kevlar® and Nomex® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company

# HONEYWELL MILLER FALCON™ CABLE SELF-RETRACTING LIFELINE

## FEATURES & BENEFITS

- Unique side payout design reduces wear on the entry guide bushing and cable for smooth operation with less drag
- Smooth: quiet operation – Engineered spring retraction tension designed not to pull or drag on a worker to improve productivity and reduce fatigue
- Built-in: ergonomically-designed molded handle on the 50-ft. (15 m) and 65-ft. (20 m) cable units provide support and leverage when attaching to anchorage connector
- Dual swivels (unit top and snap hook) included on all cable models to minimize lifeline from twisting during use
- New and improved load indicators identify when the unit needs to be removed from service\*
- \*Cable models – on snap hook: Web models – flag on webbing
- Units are repairable and require no annual factory recertification\* – Lowers cost of ownership and increases productivity
- \*Except in Canada where the Canadian Standards Association requires annual factory recertification
- Cable models rated to 310-lbs. (140.6 kg) capacity or 400-lbs. (181.4 kg) when using a SofStop shock absorber (928LS/18INBK)
- Web models rated for up to 400 lbs. (181.4 kg) worker

PART#	DESCRIPTION	WEIGHT
MP30G-Z7/30FT	9 m (30 ft) galvanized cable (5 mm [3/16 in]) w/tagline & carabiner	4.9 kg (10.7 lb)

# MILLER TURBOLITE™ PERSONAL FALL LIMITER AND TWIN TURBO™ FALL PROTECTION SYSTEM

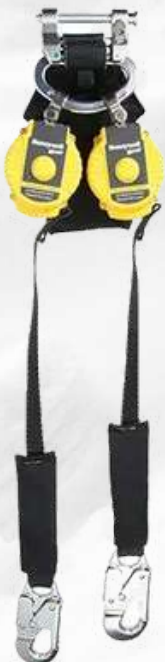

PART#	DESCRIPTION	CERTIFICATIONS
MFLC-4-Z7/6FT	Locking Rebar Hooks w/ 3,600 lb. Gate Strength	OSHA 1926.502, OSHA 1910.66, ANSI A10.32-2012 and ANSI Z359.14-2012 Class A & B, CSA Z259.2.2. (Hardware meets ANSI Z359.12-2009 and CSA Z259.12-11.)
MFLC-12-Z7/9FT*	Aluminum Locking Rebar hooks w/3,600 lb. Gate Strength	Same as above

## FEATURES & BENEFITS

- Performance and Safety
- Better alternative to double-leg lanyards – Reduces fall clearance requirements for use in more applications
- PFLs swivel independently – Provides ultimate worker mobility and prevents webbing from twisting and binding in the unit
- Superior safety – Webbing Retainer Clip rotates freely to prevent unintentional opening of carabiner gate during a fall increases worker safety
- D-Pad Clip – Maintains harness adjustment while working by keeping the harness webbing and D-Pad in place
- Twin Turbo G2 Connector meets all applicable standards including OSHA: ANSI and CSA

# HONEYWELL MILLER 6 FOOT TWIN-LEG TURBOLITE FLASH PERSONAL FALL LIMITER

## FEATURES & BENEFITS

- An all-in-one solution for Arc flash and hot work applications:
- High impact housing with integral shock absorber
- Comes in various lengths: configurations: and connector options
- Rated for up to a 420lb. (189 kg) weight capacity for all connections down to foot level.
- Meets the most stringent safety standards: including ANSI Z359.14 and ASTM F887.

# HONEYWELL MILLER TITAN™ II SHOCK-ABSORBING LANYARDS

PART#	DESCRIPTION	CERTIFICATIONS
-------	-------------	----------------

T6122SS-Z7/6FTAF

- Locking snap hook
- Large locking rebar hooks
- Contracts 6-ft. (1.8 m) to 4-ft. (1.2 m)

All Miller brand fall protection products meet applicable OSHA, ANSI and CSA requirements.

The new economical Miller Titan™ II line of harnesses offers enhanced adjustability, improved comfort and increased worksite safety. This next generation of Titan harnesses from Honeywell Industrial Safety is an affordable fall protection solution for the general construction, manufacturing and oil & gas (refinery) markets.

## HONEYWELL MILLER 6 FOOT DUAL LEG ARC RATED SHOCK ABSORBING LANYARD (KELVAR WEBBING)

PART#	DESCRIPTION	CERTIFICATIONS
-------	-------------	----------------

8798KR-Z7/6FTBK

The 8798, double-legged, web lanyard with SofStop shock-absorber, is designed to reduce fall arrest forces. The 2 'legs' of the lanyard provide the ability for 100% tie-off

Meets all OSHA 1926.502, OSHA 1910.66, ANSI Z359.13, and CSA Z259.11 requirements.

### FEATURES & BENEFITS

- An all-in-one solution for Arc flash and hot work applications:
- High impact housing with integral shock absorber
- Comes in various lengths: configurations: and connector options
- Rated for up to a 420lb. (189 kg) weight capacity for all connections down to foot level.
- Meets the most stringent safety standards: including ANSI Z359.14 and ASTM F887.

# MILLER 650K CONFINED SPACE, WELDING BODY HARNESS

PART#	DESCRIPTION	CERTIFICATIONS
-------	-------------	----------------

650KFD-7/UBL	Miller 650K Confined Space, Welding Body Harness 650K-7/UBL - Universal - Blue - 05026	CSA, OSHA
--------------	--	-----------

The Miller body harness is made of nomex webbing, comes in blue and meets CSA, OSHA standards. Proper sizing is important when buying this SKU. The size for this product is Universal. For proper security and safety, this body harness has back, side D-Ring securing points. For proper security and safety this body harness offers a maximum working load of 400 lb. This SKU comes with the following: Belt Loops, Sub-Pelvic Strap.

# MILLER RELIEF STEP™ SAFETY DEVICE

PART#	DESCRIPTION
-------	-------------

9099X/12	Consists of a box of 12 Relief Step Safety Devices
----------	--

The Miller 9099 Relief Step is designed to relieve suspension trauma after a fall arrest. OSHA states that suspension trauma can occur within minutes after a fall, while waiting for rescue. The average fall rescue time is 15 minutes. The Relief Step provides support and helps blood circulation until rescue. Small and lightweight, the Relief Step attaches to any brand or style full-body harness.

# HONEYWELL MILLER AIRCORE TOWER CLIMBING HARNESS

PART#	DESCRIPTION	CERTIFICATIONS
ACT-QCBCUG	Quick Connect Chest and Leg Straps, Front D-ring, Lumbar Pad, Side D-rings, Removable Belt	Harnesses meet OSHA 1926.502, ANSI Z359.1, ANSI A10.32 and CSA Z259.10-12 requirements.
ACT-QCUG	Quick Connect Chest and Leg Straps, Front D-ring, Lumbar Pad, Side D-rings, Removable Belt	Same As Above

MADE TO ORDER

The new Miller AirCore™ Tower Climbing harness provides the ultimate in performance, comfort and durability – exceeding expectations when used in even the most challenging climbing environments!

This new line of AirCore harnesses keeps your workers comfortable and safe – increasing productivity. It's designed for workers climbing cell phone, TV, radio and utility towers, while building/decommissioning towers, changing out transmission lines/antennas, or installing/replacing lights.

# HONEYWELL MILLER H500 HARNESS

PART#	DESCRIPTION	CERTIFICATIONS
H5ISP111002	The modern ergonomic design provides higher visibility, smarter features and safer, more comfortable functionality. Select from four models, available in three sizes.	Harness meets OSHA 1926.502, ANSI Z359.11, and **CSA Z259.10.

MADE TO ORDER

The new Honeywell Miller® H500 integrates evidence-based “best-in-class” anatomically and ergonomically designed pressure-relief breathable paddings for more comfort and freedom of movement and introduces a variety of other new smart and intuitive features.

# HONEYWELL H700 HARNESS

PART#	DESCRIPTION	CERTIFICATIONS
H7CC1A2	Fall Protection Harness: Fall Arrest, Racing Harness, Back/Chest/Side, With Belt, Aluminums.	OSHA 1926.502- ANSI Z359.11 – 2021

MADE TO ORDER

The new and exciting Honeywell Miller H700 Premium Series full body harnesses are the result of Honeywell's hyper focus on ergonomic science and safety innovation. The latest in the H-Series, the Honeywell Miller H700 boasts technologically advanced safety, comfort, and modular features.

# HONEYWELL MILLER TITAN II NON-STRETCH HARNESS

T4007/UAK

T4007FD/UAK

## FOR INDUSTRIAL WORKSITES & PLANTS

The new economical Miller Titan™ II line of harnesses from Honeywell Industrial Safety is an affordable fall protection solution for the general construction: manufacturing: oil and gas (refinery) markets.

Increased Worksite Safety

Hi-Viz color webbing and ANSI Z359.11 compliance

### State 3-ring Harness

Full-body harness w/sliding back D-ring; front D-ring, side D's, mating buckle legs, chest & shoulder straps; sub-pelvic strap – universal (4 Ring Harness)

\*\*Same features as T4007/UAK.

Please see the difference below:

## FOR INDUSTRIAL WORKSITES & PLANTS

Fall protection solution for the general construction: manufacturing: oil and gas (refinery) markets.

Enhanced cut resistance, comfort, ease of selection, cost-effectiveness. With Honeywell CoreShield™, simplified hand protection is at your fingertips.

## INDUSTRIES

Manufacturing, Automotive, Metal stamping, Glass handling, Construction, Logistics

### EASY TO CHOOSE

The color-coded marking system makes it easy for you to choose the gloves you need for your application, according to the new EN 388:2016 European standard and ANSI-105-2016 American standard. Choose by level of cut protection, grip, dexterity and fit.

### EASY TO WEAR

One of the lightest-weight cut-protective gloves on the market, they help to prevent hand fatigue for workers who need to wear them all day long. Skin-friendly yarns that reduce the allergy risk to wearers. CoreShield™ gloves are certified STANDARD 100 by OEKO-TEX®.

### COST-EFFECTIVE TO BUY

CoreShield™ High Performance Coating has special abrasion tech- nology for x2 durability coating. The washability of the glove mate- rial means that even after 5 wash- ing cycles, there are no significant changes in performance or size.

GRIP N HOT MILL GLOVE

The knitting technique gives the gloves perfect support, limits the penetration of dirt and offers a good touch. The gloves are ambidextrous and thus more cost-effective. The cotton lining reinforces the gloves' mechanical performance while absorbing hand perspiration for added comfort.

## NORTH NITRIGUARD PLUS™

Unsupported nitrile, chemical resistant gloves. Nitrile formulation contains no latex proteins which could cause allergic reactions. Nitrile offers superior resistance to cuts, snags, abrasions and punctures. Nitrile will not swell, sag or weaken from fat absorption. Complies with USDA and FDA regulations, 21 CFR, for use in food processing

**APPLICATIONS:** Aerospace and automotive degreasing, automotive assembling and painting, chemical handling and processing food processing, print and graphic shop cleanup

# MULTITRIL V747 DISPOSABLE GLOVES

### Properties and advantages

- Free from natural latex
- Snug fit
- Very high touch sensitivity
- Roughened fingertips for better grip
- Increased tear resistance

### Special features

- Silicone-free glove surface (non-damaging to paint, automotive test method)
- Virus resistance tested according to ISO 16604:2004
- Tested according to the requirements of EN 455 (The glove is not a certified medical device within the meaning of Directive 93/42/EEC)
- Tested according to the requirements of Regulation (EU) No. 10/2011

**APPLICATIONS:** Food preparation and processing , Product protection, Electrical industry, Cleaning, and maintenance work, Surface disinfection

**HONEYWELL NORTH  
HEAD PROTECTION**

# HONEYWELL NORTH SHORT BRIM HARD HAT - TOUGH HAT

NSB10001

NSB10002

NSB10003

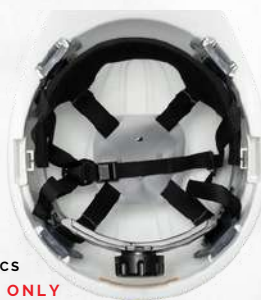

NSB10004

NSB10015

NSB10071

NSB100CS  
STRAP ONLY

NSB11001  
VENTED

In workplace environments such as industrial or construction sites, high rotations of personnel are common practice and providing dozens of workers with certified head protection can be expensive. Choosing a less known manufacturer, you might get a product with compromised quality, not certified to the latest standards. That would put your workers' safety at risk and bring about possible customer service issues.

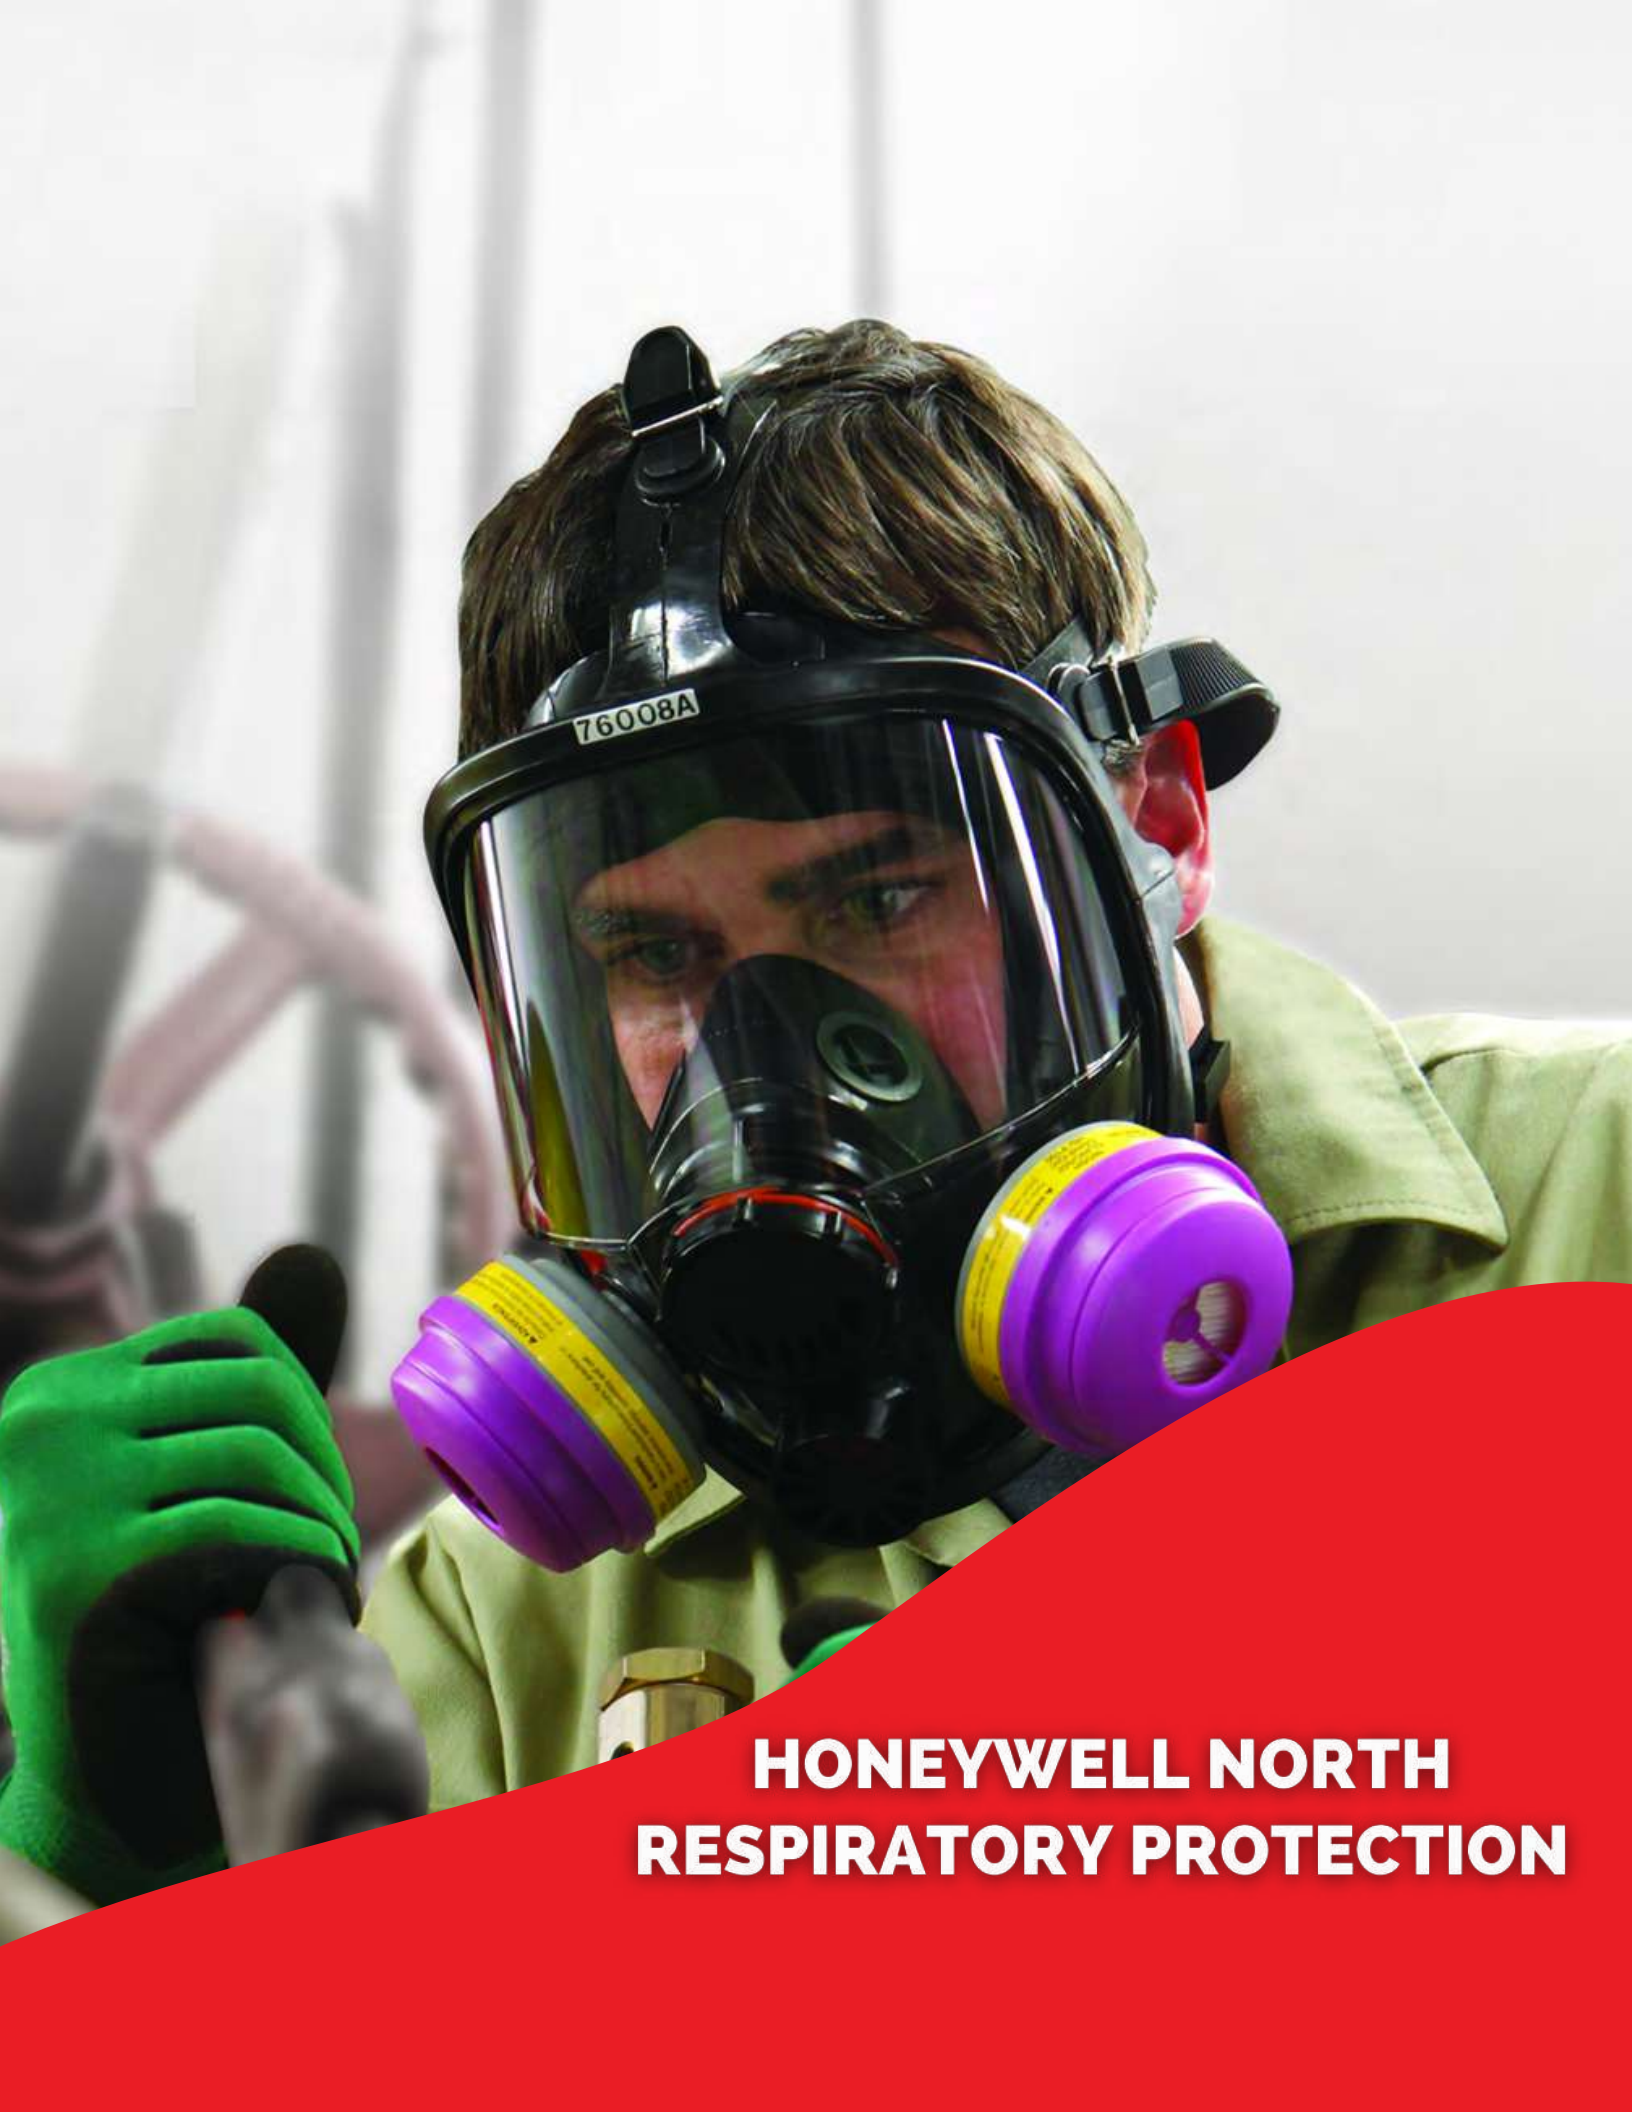

## Features & Benefits:

### HDPE Type I hard hat

#### Certifications:

- Annex II of the PPE Regulation (EU) 2016/425 Category III (non-vented) + Category II (vented)
- CE/EN (EN 397:2012 +A1:2012, EN 50365:2002 (non-vented versions) standard

- **Ratchet 4 point suspension**
- **"Dual-Locking" mechanism, prevents the hard hat to get loose in normal conditions**
- **Vented (NSB110) and non-vented (NSB100) options**
- **Electrical class: non-vented version as per EN 50365:2002**
- **Eight color options: White, Yellow, Orange, Grey, Dark Blue, Green, Red, and Black**
- **Resistant to temperatures from -30°C to +50°C**
- **Optional 4-point chin strap**
- **Compatible with Honeywell headgear (face shields, welding, hearing)**
  - CP5005 plastic face-shield bracket
  - 3796VS1 helmet adapter for cap mounted earmuffs
- **Comfort – provides a comfortable solution that can be worn all-day**

**HONEYWELL NORTH  
RESPIRATORY PROTECTION**

5500 SERIES HALF MASK

5500 Series half mask with 2 P100 filters Respirator convenience packs the 5500 series is available in easy-to order convenience packs Convenience packs combine the most commonly used gas and vapor cartridges and/or particulate filters Available in medium size >See more product details.

SKU	PRODUCT NAME & DESCRIPTION	SIZES
550030*	Thermoplastic elastomer half mask	Sm/Med/Lrg

NORTH 7700 SERIES PREMIUM SILICONE HALF MASK

Converts to PAPR or supplied air respirator. Latex free. Lower headstraps stretch and move with the worker for more comfort without pulling on the facepiece. The benchmark in half masks designed to provide maximum comfort, fit and performance. Upper headstraps have minimum give to provide secure support. Various thickness in sealing area for improved comfort and support - more support around the chin area and more flexibility on the nose bridge. Wide, contoured sealing area for great fit.

SKU	PRODUCT NAME & DESCRIPTION	SIZES
770030*	Soft, comfortable and durable silicone half mask	Sm/Med/Lrg

5400 SERIES FULL FACEPIECE

The best value you can find in a full facepiece. Honeywell innovation: quality and attention to detail come together in an economically priced mask. Standard features include a nose cup and wide field of vision. The 5400 easily converts to a PAPR or Supplied Air respirator.

SKU	PRODUCT NAME & DESCRIPTION	SIZES
54001S	Thermoplastic elastomer full facepiece w/4-point headstrap	Small
54001	Thermoplastic elastomer full facepiece w/4-point headstrap	Med/Lrg

NORTH RU6500 SERIES FULL FACEPIECE

These full-face respirators are made by Honeywell North. Full-face reusable respirators are NIOSH-rated cover the entire face to provide breathable air and protect eyes from irritation caused by gases, vapors, and airborne particles. Cartridges can be changed when they become dirty or when specific hazards are encountered. Filters and cartridges are compatible with a specific brand and mask model.
