Virtual Support from DMV Training Team for DRIVES Upgrade

These Virtual Support Sessions are a great opportunity for users from identified county or State offices to connect with the DMV Training Team via Google Meet. To make the most of this session, please have your Support ID ready so we can answer your questions about:

- System navigation
- A refresher on how to enter information on the updated screens
- A reminder on how to access specific information within DRIVES

While we're here to help guide you through the system, please note that the DMV Training Team does not have the necessary security permissions to complete transactions for you, nor can we determine the appropriateness of submitted paperwork. We highly recommend completing the DRIVES Upgrade Curriculum before joining these sessions so you can get the most out of our time together.
