

## August 26th & 27th, 2020

July 2020

### Hello Medicare agents and those interested in learning about Medicare!

10 of the 13 Local California AHU chapters have chosen to take this opportunity of the virtual world and come together and host a CA STATEWIDE Medicare EXPO. We only see the positive of being able to offer more classes (no time/room restriction), address all regions in the state in ONE conference (not just local silo's), and with combined attendance be able to draw high profile industry speakers.

We are **extremely excited** to offer this virtual event with an updated delivery for the many Certifications, CE'S, and Product Training our industry partners provide. By going virtual, combining TEN chapters from up and down the state, and improving the ability to provide regional training statewide, we will be a one stop shop with all of the content you need anywhere in CA.

The **virtual experience** is so thorough, and engagement will be encouraged throughout the two-day deep dive into all things Medicare agents need to know. **Education** is key for all of us, and it also gives you an opportunity to show your value to your clients. We will be opening **over 100 education sessions** – please let us know if you have a valuable one to add.

To our potential **Impact Partners** - this is an opportunity that cannot be passed up. With your support and insight, we are excited to see what creative idea's we will bring to this **first ever CA Statewide Medicare Expo**. We look forward to providing an event that will elevate Medicare agents throughout the state.

We would like to take this time to say a heart-felt "**Thank You**"!

We appreciate your support for all of your local chapters because you know and support the role agents play in the Medicare eligible community.
