An annual flu shot is recommended for everyone who is at least 6 months of age and older, especially those with certain medical conditions, pregnant women, and people 65 years and older. Visit immunizenevada.org/flu for more information.

Flu vaccines will be available at low or no-cost for children and adults who qualify. Flu vaccines will be administered by Washoe County Health District on a first-come-first-serve basis while supplies last. If you have health insurance, Medicaid, Medicare, or Nevada Checkup, please have your insurance card with you. If available, please bring the child's immunization record.

All children who get a flu shot (plus one adult per family) will be given free admission to the museum between 4-8 PM that day.
