

BLIZZARD of BLESSINGS 2016

INNOVATIONS INTERNATIONAL CHARTER SCHOOL of NEVADA

Do you remember snow-days when you were a school kid? I do, I grew up in the Northwest, and when the white stuff fell, it held magic for all the kids! Hi, my name is Andy Bratton, I am a fourth grade teacher at Innovations International Charter School of Nevada. We are a Title 1 school, in fact nearly 90% of our students live below the poverty line. I have had a dream for a couple of years and I am hoping you will participate and make this dream become a reality.

I am fund raising for an all-school snow day. These deserving kids do not have the means to travel and see snow, and they live in the desert- strike two!

I am working with a company; <https://www.foamdaddy.com/Snow/Snow-Machine> who will deliver the snow to our campus. The following is taken from their website.

Real Snow Delivered

We will deliver REAL SNOW directly to your event or residence. Available in most cities. 4 ton minimum will cover a 15x15 sq ft area and snow will be 6 inches deep. \$350-\$425 per ton. Call for a quote.

Under the recommendation of the company and over 600 children we are serving, I am attempting to secure funding for 8 tons.

If you or your company would like to help it snow lasting dreams in the desert for these wonderful children, please contact me. Andy Bratton 702-353-3437 email: andy_bratton@iicsn.org

Thank You!
