## ROUNDTABLE DISCUSSION

## NEVADA STRONG: PROTECTING OUR ADOLESCENTS IS PROTECTING OUR FUTURE

### HOW CAN WE WORK TOGETHER?

Nevada Health Centers in partnership with Nevada Primary Care Association are pleased to invite you to an informal round table discussion on the implications of homeless adolescents and/or adolescent victims of human trafficking. The objective of the round-table discussion is to identify access barriers, available resources, potential interventions, and agencies interested in developing and implementing an integrated community-based model to move homeless/trafficked adolescents into a productive adulthood without returning to the streets or human trafficking.
