

CADY SAFE SERVICE

OUR COMMITMENT TO YOU DURING COVID-19

We want to assure our schools that our company's commitment to the safety of the communities that we serve is one that we take very seriously. The approach we have established is what we are doing to protect our students, what we are doing to protect our staff members, and recommendations we have for those we are photographing and the guardians that may accompany them. We will be continuously evaluating the recommendations of local government and safety officials and updating as needed.

SAFE SERVICE FOR OUR STUDENTS AND TEAM

FACE MASKS

Our staff will be wearing face masks and we'll have masks available for students. We will also be taking temperatures upon arrival.*

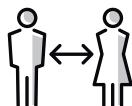

CLEANING

We will be cleaning and sanitizing each area between students to help minimize the spread of germs.

HAND SANITIZER

We will have sanitizing stations available at the check-in desk so students and employees can keep their hands clean. Employees will also be instructed to wash their hands throughout the event.

KEEP A SAFE DISTANCE

We will have signage reminding students to keep a safe distance as well as temporary markers on the ground indicating where the students should stand.

EVENT DISTANCING

Our photographers will be located at a safe distance from all students when photographing and we will also be limiting the number to 2 employees driving to any event.

STAY AT HOME

If an employee is experiencing Covid-19 like symptoms and not feeling well, in accordance with The Families First Coronavirus Response Act (FFCRA or Act), Cady will be providing paid sick leave.

RESILIENT SPIRIT

We're showing up feeling eager to make these the best school photos yet, so start getting excited!

*Temperature checks will be performed daily on all staff and any Senior coming to the studio or road shoot.
