

Smartphone Friendly

Use the Meditech Portal on mobile devices by downloading the MHealth app from the Apple App Store or Google Play Store.

Essential Information and Tools

The Meditech Portal lets you manage your health information and care easily and securely. It includes:

HEALTH INFORMATION

- Lab and exam results
- Allergies and conditions
- Immunizations
- Medication List
- Visit history
- Discharge instructions
- Health summary
- Download medical records to personal computer

COMMUNICATION

- View upcoming outpatient hospital appointments

BILLING

- Online Bill at <https://simplepay.basysiqpro.com/?id=5fa31de978a1b70017ecd176>
- Outstanding balances

Additional Benefits

Beyond a variety of health management features, the Meditech Portal provides:

SHARED ACCESS

You can grant access to your [Portal] to trusted individuals, such as family members, and can specify which types of information they can see.

SECURITY

The Meditech Portal is encrypted, rewrites URLs, and times out after inactivity, making it safe to use on personal or public devices.

INTEGRATION

All of the information in Meditech comes from your FCMC's Electronic Health Record to ensure you have accurate, up-to-date information.

SUPPORT

Each Portal page includes Contact Us and Learn More sections to get help with your technical questions.

PATIENT PORTAL powered by MEDENT

Take a more active role in your healthcare and create a more accurate record of your medical history with Patient Portal.

SECURE ONLINE ACCESS

WHAT IS PATIENT PORTAL?

Patient Portal gives you secure online access to portions of your medical records, as well as a convenient way to communicate with your practice. With Patient Portal, you can:

- Send and receive non-urgent messages and information from your doctor's office, including test results and educational material and prescription refills.
- Easily notify the practice of changes to your personal information, including your phone number, address and insurance information
- View upcoming and previous appointments
- View and/or print your current medications and allergies list ...and more!

Need Help?

We have several video tutorials available to help you activate and access your account, including how to update your account information and history, reset your login or password, create messages, and view documents and chart items.

HOW DOES IT WORK?

You'll need to use a computer, smartphone or tablet with an internet connection and an up-to-date browser (such as Google Chrome, Edge or Safari) to connect to Patient Portal.

You also need an email address so we can notify you when you have a new message to your portal account. We treat this with the same privacy and care as your health records.

HOW DO I SIGN UP?

As a patient at our practice, you're eligible for a free Patient Portal Account! You just need to contact our office for your activation code.

Once you have your unique code, you can create a username, password and other login information used to verify your identity.

NOTE: Your activation code is case sensitive. You must also enter your name exactly as it appears in our practice system, including any suffixes.

ACCESSING YOUR ACCOUNT

Go to our practice website and click Patient Portal to access your account.

1 LOGIN OR ACTIVATE ACCOUNT

New patients must click "Activate account" and enter personal information, security information, login information and your activation code.

2 REVIEW ACCOUNT INFORMATION

When you log in for the first time, you will be asked to review your account information and update your history.

3 SEND MESSAGE OR VIEW/PRINT INFORMATION

You can send and review non-urgent messages and view or print information from your chart.

4 LOG OUT

Don't forget to log out when you're finished!
