Arts Enrichments:

This year, we have fantastic opportunities for K-2 students to join the 9-week theatre class that started Wednesday, August 20. There are three spots left! The theme is Top Chef, and they will dance, sing, act and play games with Mrs. Shay.

Caroline Stephenson will be teaching 3-8th grade students the basics of auditioning and preparing them with their own musical theatre piece, as well as a group number, in "Raise your Voice" which begins September 2.

[For more information on these and other enrichments, click here!](#)

Theatre this year:

First semester, there are enrichment offerings for students K-8 after school, as well as a set building club for students grades 9-12. In the second semester, we look forward to two major performances, including a play and a musical.

Friday, February 6, students will perform in a comedic play. Students in grades 3-12 have the opportunity to audition for the show in late November. The comedy allows students to stretch their acting skills and work on characterization, blocking, and projection. Rehearsals will run Wednesday, Thursday, and Friday in January with shows on Friday, Feb 6.

For our musical this year, students in grades 3-5 are invited to perform alongside the Catawba Theatre Department. This fantastic opportunity to be part of Catawba's 100-year theatre show gives students an amazing chance to sing and dance on the Keppel stage and work with a variety of professional theatre professors. **Auditions are Wednesday, December 3 at Catawba** with times TBD. Show dates are April 10, 11, & 12, and tickets will be available in September with Catawba's official 100th Theatre Season Announcement!

Private Lessons & Classes:
