\$150 per student
Register by visiting:

This dynamic Spanish language enrichment program offers an engaging and immersive approach to learning through storytelling, interactive games, hands-on activities, and cultural exploration. Designed for students of all foreign language experience levels, the program uses proven language acquisition methods to build fluency naturally and effectively. From lively conversations to expressive art and festive culinary experiences, students will develop confidence in speaking, listening, reading, and writing in Spanish—all while having fun.

As the holiday season approaches, students will embark on a joyful journey beyond traditional language instruction—exploring the warmth and richness of Spanish-speaking cultures through meaningful, themed experiences. Painting sessions will allow students to express seasonal vocabulary and scenes on canvas, while hands-on culinary activities will introduce them to celebratory dishes and the language of taste and tradition. Interactive skits, games, and conversations—some with a holiday twist—ensure students feel comfortable and excited to practice their skills in real-world contexts. Each lesson is tailored to individual interests, making language learning personal, engaging, and infused with a touch of holiday cheer.
