## Questions you might have

It's been a while since we've seen you, so you might have some questions, such as:

### **Q: Is DNSIB still doing anything?**

A: YES!! We met with 11 different people over the summer, some of which were very important. Come to the meeting to hear all about it!

### **Q: Does DNSIB need my help?**

A: YES! YES! YES!! We have some bold new ideas and plans for moving forward. Come to the meeting to hear all about them!

*"We are like the Jetsons while law enforcement and current gun technology are like the Flintstones."*

*-Keisha Krumm*

## We're not exaggerating

When we say 'bold' ideas we mean **BOLD!**

Ideas to take down bad apple dealers here in Milwaukee, and help Milwaukeeans see the harm they're inflicting on our city.

Ideas to put on a "technology fair" that will give us and smart guns national attention.

Ideas to connect some of Milwaukee's powerful people with national venture capital — and connect both those groups with the still-fledgling smart gun field that so badly needs money.

**SO WE NEED YOU THERE!!**
