

**Rev. Alan McCalister** is home from the hospital and doing much better. Please keep Alan and Debbie in your prayers as he continues to recover from the flu.

**Emmanuel Ahuma** has requested that we pray for his heart condition, his wife's neck pain, and for the marriages of his two adult daughters.

We offer **healing prayers** for:

- those suffering from flu viruses, and those who are treating them
- those suffering from cancer and undergoing treatment (prayers for their family members as well)
- all those we name in our hearts/minds who are in need of prayer

**Attention Pastors and Lay Leaders:** *Living Compass* is offering a scholarship for one additional pastor or lay leader to attend the March 1-3 Community Wellness Advocate Training in Chicago. One pastor is already registered for the training, however *Living Compass* encourages each participant to have a team member join them if possible. Please contact Susan Stoll ASAP if you are interested. [sstoll@pbymilwaukee.org](mailto:sstoll@pbymilwaukee.org)
