

## ***DAILY ACTIVITY PAGE—DAY 3 Answers***

### **Solution to Dots and Circles:**

### **Solution to the dot in the circle:**

Fold one corner of the paper up into the middle (center) and make a dot with your pencil on the paper, and then continue to draw from the dot on to the folded corner and bring your line down to where it can leave the folded paper and begin to draw a circle on the face up side and continue drawing the circle, flattening your paper until the circle is complete
