

YOUTH LEADERSHIP PROGRAM TEENS SPEAK UP IN RECENT SURVEY

QUESTION: The Best Thing About YLP is...

How they are concerned with someone's well-being over everything else.

It feels like our own little community! I love it because as someone like myself who can be negative to new people YLP changed my perspective totally and now I love meeting new people.

The best thing has to be the staff. everyone involved in ylp are the sweetest. they all have a positive energy. I also really love how we give back to the people. it makes us all more motivated to give more when you see a smile in their face.

That I get to experience new things and got to make new friends.

The people!! The adults are just amazing. Walking in I just feel so comfortable and everyone always has a smile in their face.

The community that YLP bring in is the by far one of the best things, including the community service and activities.

Like Joel and Briani and the rest are cool. They are helping me day by day to improve.

The people and the environment,,everyone helps each other and is kind to each other.

Everyone! I love going there because everyone so happy and energetic.

everything :)))
