

I am very grateful to have received the one-year UMAPP Collegiate Scholarship. My family and I are so appreciative of UMAPP and PPEF and their decision to help us finance my future as a college student. I am looking forward to attending my second year at the University of St. Thomas after an exciting and intellectually stimulating first year at the university. I currently plan to double major in Economics and Environmental Studies while also playing my second year of collegiate soccer. Thank you for recognizing my hard work and making all of these college opportunities more possible for me.
