Weekly Update

at Speedway Christian Church

In Luke 18:9-14, both the Pharisee and the tax collector have something to learn about what it means to follow God.

The Pharisee must learn that faith isn't about status or comparison, and the tax collector must learn that grace calls him not only to humility but to transformation.

True discipleship grows where honesty and mercy meet - and it is then that God can lead us into a life transformed by grace.

There is much to explore in this text and I look forward to doing so with all of you on Sunday.
