KEEP YOUR CITY CLEAN

With Cyclone's line of hard surface cleaning systems you can keep your city roadways, parking garages and sidewalks looking their best!

Cyclone has a machine that will fit your needs.

THE BEST SOLUTION

The products are designed to clean hard surfaces with instant recovery, leaving the surface dry and ready for use in minutes.

- Aids in EPA Compliance
- High Productivity
- No Waste Water Runoff
- Chemical Free

> The vacuum free design means less maintenance and lower annual fuel cost; resulting in a faster return on investment

CYCLONE MACHINES

Cyclone has two expertly designed machines that have the ability to clean all aspects of your city. These machines are designed for cleaning hard surfaces such as concrete, asphalt, cobblestone, and more. Both can do paint line rejuvenation

With one or both of these machines you will never have to worry about keeping up with cleaning and sanitizing your hard surface areas.

CY5500
Cleans sidewalks, parking garages, and more. Recycling capabilities, single pass cleaning and a compact size for hard to reach areas.

SK2
Truck-mounted hard surface cleaning machine with CY210 walk-behind. This machine is ideal for sidewalks and hard to reach areas.
