The evidence-based CATCH Early Childhood (CEC) program is designed to nurture a love of physical activity, provide an introduction to classroom-based gardening and nutrition, and encourage healthy eating in children ages 3-5. Little ones are motivated to walk, run, jump, dance and move their whole bodies while playing and having fun.

Thanks to generous funding from the Buell Foundation, CATCH Global Foundation is excited to provide our CEC program implementation training to Center Directors, Teachers and Child Care Providers free of charge. CATCH Training Workshops have been developed and refined over a 20 year period and are fun, dynamic and multi-dimensional clinics designed to provide the knowledge, skills and tools to successfully implement and support your CATCH Program. We focus on establishing a process that sets up everyone in the community to succeed. Our rule in trainings is, "if it ain't fun, it don't get done!"
