

Easily recruit college talent and receive grants to cover half of their pay!

The SciTech Internship Program is a FREE small business resource here to make hiring interns easier and more affordable!

Create a company profile and gain access to an exclusive candidate pool of pre-vetted college STEM talent, all of which are eager for hands-on opportunities at innovative companies like yours!

- **We recruit on your behalf, pre-vetting students and coaching them on how to apply**
- **You make the hiring decision!**
- **Every hire reported reserves a grant that will reimburse you for 50% of what you pay your intern (up to $2,500 back per student hired).**
- **Eligible industries include IT/cybersecurity/AI, engineering, life sciences, medical devices, manufacturing, construction/civil engineering, renewable energies and more!**

Watch our program trailer to hear from employers currently benefitting from the program.
