

# CC Cuber

- Latest cuber from TIGER makes cubing more efficient than ever
- Capability to cube 2 different products at the same time
- Product is always carried over pull plates eliminating risk of dropping product
- All completely in-line; from kiln to wrapped and out the door
- Flexibility to add calibrators, in-line tumbling, grinders or other specialty lines before the Cuber on either the side lines for block and wall or centerline for pavers and slabs
