

# Autism Forum

*for caregivers, family, and friends*

The Autism Friends and Family Forum meets monthly to support family members and friends who provide care and guidance to adults (17+) with an autism/asperger profile. Discussion topics will include helping to manage care as needed while supporting the independent life of an adult with autism.

The Forum is facilitated by Linda Manning and was created for parents, caregivers, friends, and extended family in western Massachusetts, but participants from other areas in Massachusetts are also invited to join.
