

# COMMUNITY E-NEWSLETTER

*Sign Up  
Today*

*Our new E-Newsletter is aimed at increasing the methods the City uses to engage its residents. Engagement involves more than public participation at meetings and events, and the use of technology provides a great number of opportunities to ensure residents have access to a wide range of tools and information in order to participate more in community affairs. The newsletter will highlight City events, services, projects, community happenings, the latest City Council initiatives, and more!*
