Nonprofits across the Sacramento region are facing rising community needs, limited funding, and teams stretched thin. Many leaders are operating in constant crisis mode while trying to sustain both their organizations and themselves.

Hosted at **Aggie Square** by **Connect Labs by Wexford** in partnership with **Margo Fowkes** of **OnTarget Consulting**, we'll bring together nonprofit leaders, staff, and board members to explore real-world strategies for long-term sustainability.

Expert panels and roundtable discussions focused on:

Governing for Sustainability

Explore how boards can move beyond compliance to become true strategic partners—supporting leadership, strengthening accountability, and navigating financial uncertainty together.

Diversifying Revenue Beyond Grants & Donations

Learn practical approaches to fee-for-service models, productizing offerings, and earned revenue strategies that align with mission while reducing overreliance on philanthropy.

Mental Health and Wellness for Nonprofit Leaders and Teams

Acknowledge burnout as a systems issue—not a personal failure—and discuss realistic ways to support leadership and team wellbeing in high-need, resource-constrained environments.
