

# STEM Scholars

The Energy Resources Center invites **junior and senior** high school students to participate in the **free after-school** STEM Scholars program. Through six, 2-hour sessions, one day a week, students will experience real-world science, technology, engineering, and math (STEM) first-hand.

\*\*\*

Participating students will have the chance to earn a **paid summer internship** at the Energy Resources Center learning more about energy efficiency, consumer-facing technologies, and educating their neighbors on how to save energy.

\*\*\*

If you are interested in the program please apply here: <http://erc.uic.edu/energy-efficiency/stem-education/>
