LET'S CAMP

Affordable & Reliable Campground Booking System

Let's Camp is hands-down the easiest to use and most affordable online campground booking software. We've designed our software based on feedback we've learned from campgrounds just like yours.

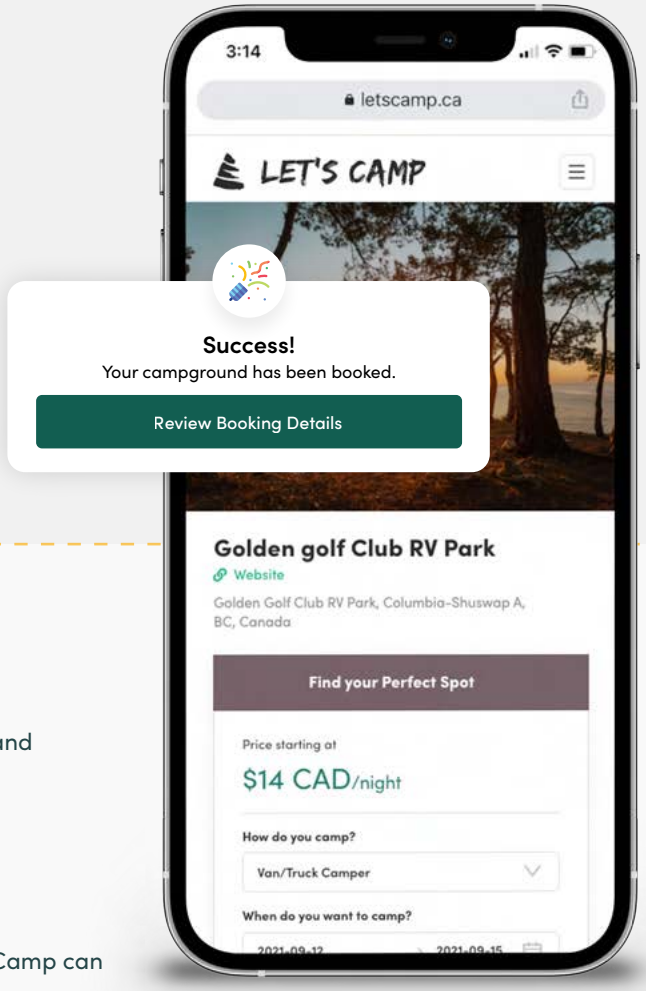

Benefits That Actually Make a Difference

Get Listed & Get Found

Some campgrounds are blessed with a season full of bookings, but many campgrounds we've talked to have times of the year they'd like to be more full.

We're continually working on building new features into our Campground Marketplace and marketing it to attract new campers to book at your campground, all at no cost to you.

Whether it's a campers first stay or their 100th, booking at your campground with Let's Camp is always smooth sailing.

Save Time & Eliminate Errors

If you've been dealing with bookings, changes, and cancellations by writing them down in a notebook or spreadsheet, double bookings and missed bookings can happen, leading to stressful situations.

If you haven't had these problems, I think you might be an auditor.

Streamlining bookings, edits, and cancellations online is what Let's Camp can do for you, but our software also makes it simple to train new staff. We focus on usability and building features that minimize errors so your campers and staff can easily navigate through the system, eliminating support.

This is the kind of stress relief your body will thank you for.

More Revenue through Automation

How many bookings are you missing a week from missed phone calls or delayed email responses? Just losing 2 bookings a week could be costing your campground thousands of dollars.

Allowing campers to book and pay online makes you more money, end of statement, mic drop.

Automating refunds can also save campgrounds a ton of money that they would have otherwise given back to the camper after hearing their sob-story.

Are you interested in less stress and more revenue?

Join the hundreds of campgrounds who have already made the switch to Let's Camp, and we can guarantee you a great camping season. Did we tell you it's free?

★★★★★

Let's Camp allows the camper to create, edit and cancel their reservations which allowed our staff to focus on other duties. Love it!

DUNNET REGIONAL PARK
Saskatchewan

★★★★★

Keep up the hard work with the Let's Camp App. I can tell you that our park numbers are up about 400% from last year and I account it to using the Let's Camp app! Please share this with your team... great job!

BIG BEND CAMPGROUND
Ontario

★★★★★

Just want to let you know that we have and are still having great success with Let's Camp. It has made our lives so much easier, and I would recommend this site to anyone.

ALERT BAY CAMPGROUND
British Columbia
