
Take Full Command of
Your Revenue & Growth
The AI-Driven Operations System
for Modern Resorts
RevCommand™ | Powered by RezExpert

The Hidden Cost of Peak Season

Up to

40%

...of calls to resorts go unanswered during busy hours.

Guests go elsewhere: Campers book the first place that responds to their enquiry.

Staff burnout: Front desks are overwhelmed balancing physical guests and relentless ringing phones.

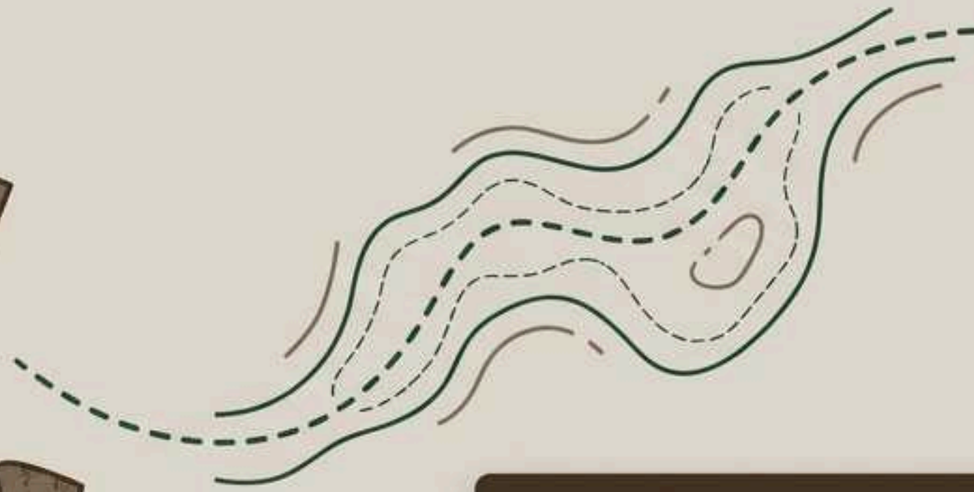

Lost revenue: You pay for marketing to generate interest, but miss the resulting enquiries.

You don’t need more traffic. You need a system to capture it.

Stop Buying Disconnected Tools. Install a Command Center.

Most campgrounds rely on scattered tools. RevCommand™ is a complete, category-defining system that controls, optimizes, and grows your revenue.

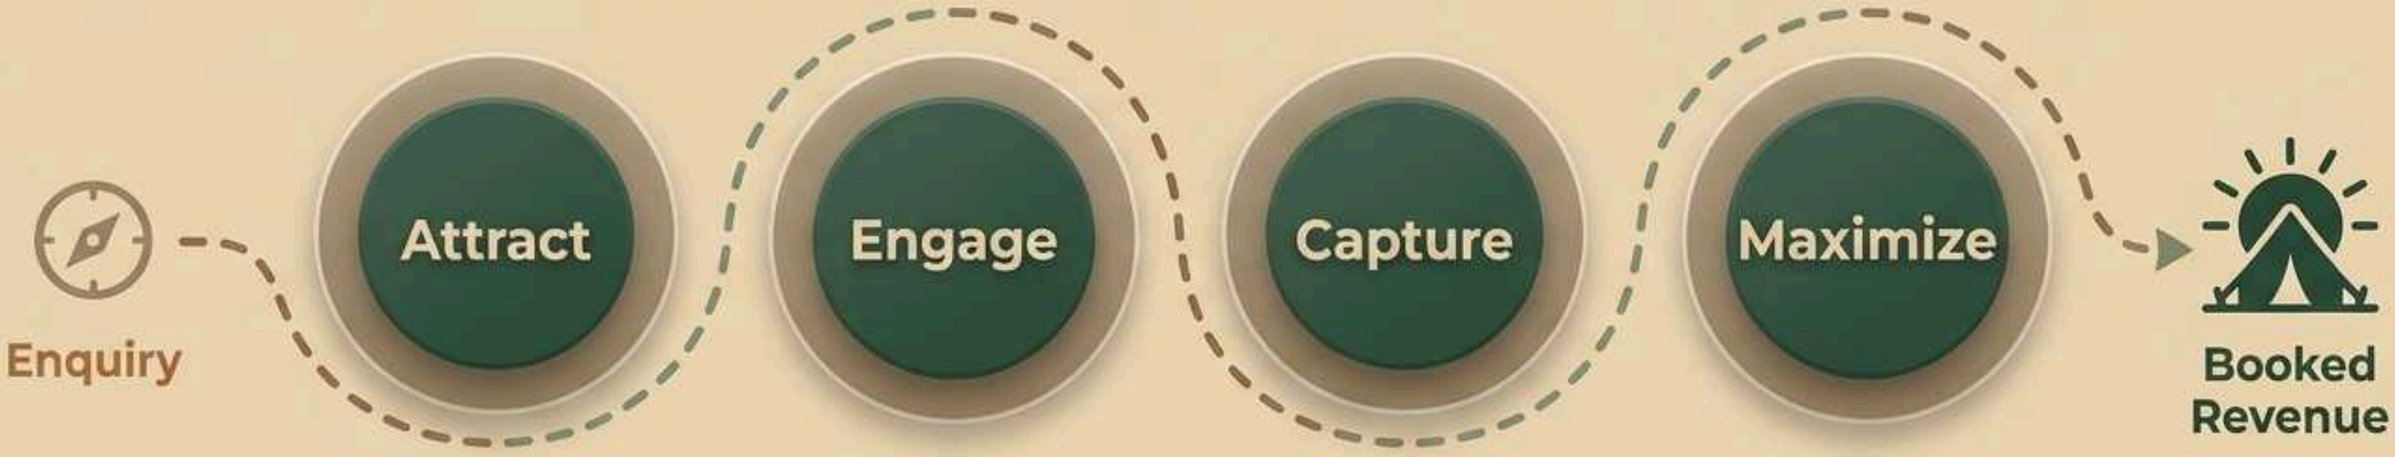

RezExpert	RevCommand™
The foundational engine running your physical campground operations seamlessly.	The intelligent layer capturing every booking, increasing conversions, and driving consistent growth.

One Integrated Guest & Revenue Ecosystem

Every interaction captured.
Every site optimized.

Module 4: Marketing & Social Growth

Module 2: Website Transformation + **Module 3:** Rebrand

Module 1: AI Booking & Guest Nurture

Module 5: Yield Optimization

Powered by the RezExpert Core System

Module 1: AI Booking Capture & Guest Nurture

Never miss a booking opportunity again.

Core Mechanics

AI voice and web chat instantly answer enquiries 24/7. Connects directly to the Online Bookings Engine and Guest Portal for seamless payment capture and automated email nurture.

Efficiency Gain

Instantly eradicates the 'Up to 40% missed calls' problem. Frees your front desk to deliver true hospitality to physical guests.

Revenue Growth

Turns previously lost, unanswered enquiries into confirmed, direct bookings.

Module 2: Website Transformation

Turn more visitors into paying guests.

Core Mechanics

Complete rebuild into a mobile-first, high-converting revenue engine featuring Map-Based Bookings, Promo Codes, and vital ADA compliance (avoiding up to $75,000 in potential fines). Delivered at a fraction of typical $8,000 agency costs.

Efficiency Gain

E-sign forms and guest portal access eliminate front-desk paperwork friction; guests arrive fully processed.

Revenue Growth ↗

Dramatically higher conversion rates directly from search traffic due to a frictionless visual booking experience.

Module 3: Full Business Rebrand

Elevate your market position to stand out.

Core Mechanics

A comprehensive $10,000–$20,000 value brand overhaul (logo, voice, competitor analysis) delivered in under two weeks. Integrates natively with Guest Experience Tools and Loyalty Point Systems.

↑ Efficiency Gain

Creates a cohesive, professional asset library that makes all future marketing effortless and visually consistent.

Revenue Growth

A premium brand perception justifies higher nightly rates and builds fierce, long-term guest loyalty.

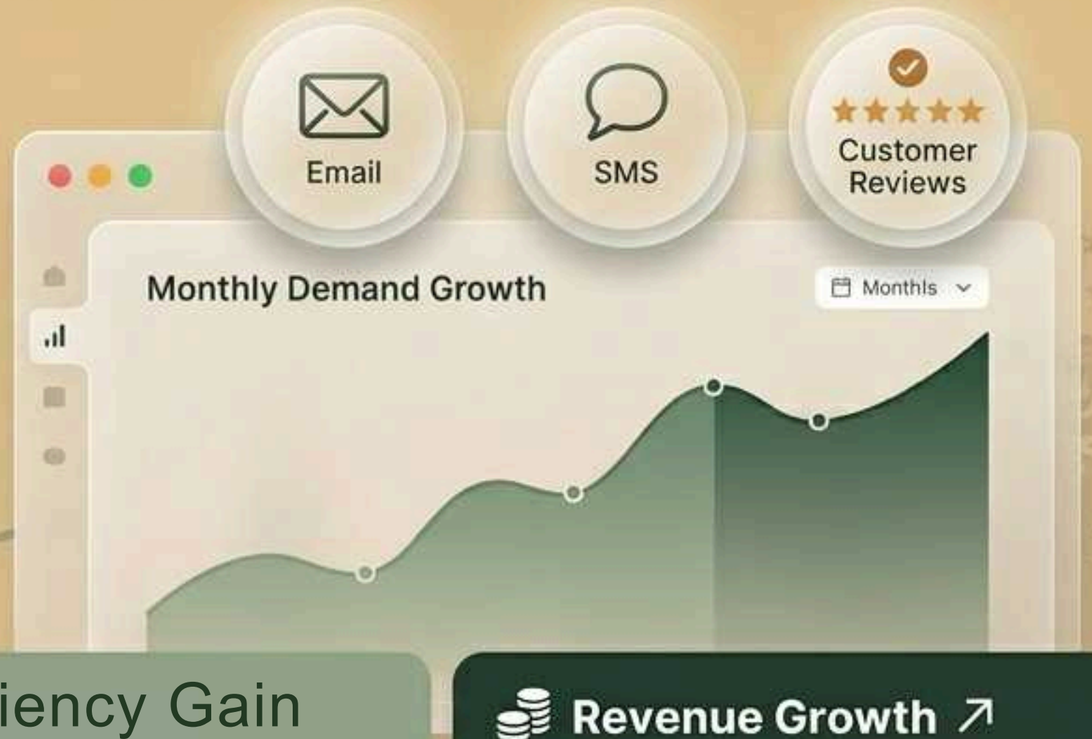

Module 4: Marketing & Social Growth Engine

Consistent demand, month after month.

Consistent demand,
month after month.

ore Mechanics

A central command center utilizing **Promo Codes, Bulk Email & SMS, and** Automated Lifecycle Campaigns based on real guest survey data.

Efficiency Gain

Replaces the need for a full-time marketing manager. Real-time analytics show exactly what is working, removing all guesswork.

↑ Efficiency Gain

Connects the need center marketing manager on th emall marketing visualisial guest complestment.

Revenue Growth ↗

Predictably attracts new campers and drives repeat bookings through automated, trackable promotions.

Module 5: Yield Optimization Engine

Maximize the profitability of every site.

Core Mechanics

A dynamic pricing engine that automatically adjusts rates based on demand, seasonality, and booking trends. Includes Channel Management, Site Lock Fees, and Refund Protection.

Efficiency Gain

Zero manual rate adjustments required. The system automatically reacts to market conditions while you sleep.

Revenue Growth

Ensures you capitalize on peak demand with higher rates, while remaining highly competitive to fill sites during slower periods.

The RevCommand Difference

	Standard Resort	RevCommand Resort
Enquiry Handling	Miss up to 40% of calls	100% AI capture, 24/7
Guest Experience	Waiting on hold, manual paperwork	Instant answers, direct links, e-sign forms
Staff Workload	Tied to a ringing phone	Focused entirely on in-person hospitality
Pricing Strategy	Static, manual updates	Dynamic, automated yield optimization
Revenue Trajectory	Leaving money on the table	Capturing every potential dollar

Built to Grow With Your Resort

Adopt the system at your own pace.

Every resort operates differently. That's why each RevCommand™ module can be purchased separately.

Three-Step Adoption Plan

1. **Start where it hurts:** Fix your biggest revenue leaks first (e.g., Module 1 to stop missed calls).
2. **Scale effortlessly:** Add Website Transformation, Yield Optimization, or Marketing as your revenue increases.
3. **Seamless integration:** Whenever you add a module, it instantly connects to your existing RezExpert foundation.

Stop Losing Revenue. Start Capturing It.
Right now, guests are calling, visiting your website, and leaving without booking. RevCommand ensures every single one of those enquiries is captured, nurtured, and converted.
