SHABBOS BEREISHIS / SHABBOS MEVORCHIM / MACHAR CHODESH

We will bentch Chodesh Marcheshvan this Shabbos. Rosh Chodesh is Sunday and Monday. We will read the special Haftorah for "Machar Chodesh" instead of for Parshas Bereishis, Artscroll Chumash pg. 1207. Since it is Erev Rosh Chodesh, we will not recite Tzidkascha in Mincha.

There is a dispute amongst the Halachic authorities about the propriety of eating Shalosh Seudos after sunset (during the twilight period). The issue revolves around the Halachic conundrum of saying "Retzei" versus Yaaleh V'yavo." The opinions range from Rav Moshe Finsitein who says there is absolutely no problem and one can eat even Challah as late as they want and still only say Retzei, to the Chofetz Chayim in the Mishna Berurah who says that ideally one should not eat anything after sunset, and thus would only say Retzei. The prevailing practice today is that we should try not to eat any Challah after the twilight period begins (approximately 13 minutes after sunset in LA) which this Shabbos would be 6:37), but one may eat other food until they are ready to bentch.

LEAP YEAR NOTE

The year that we just began, 5787, is a leap year (13 months). Therefore, beginning with the Musaf Shmoneh Esrei of Rosh Chodesh this Sunday, the first day of Rosh Chodesh MarCheshvan, we add the phrase "Kaparas Pesha" in the Musaf Shmoneh Esrei for each Rosh Chodesh through the month of Adar Beis.
