

IERHA Tobacco Vaping Cannabis Committee

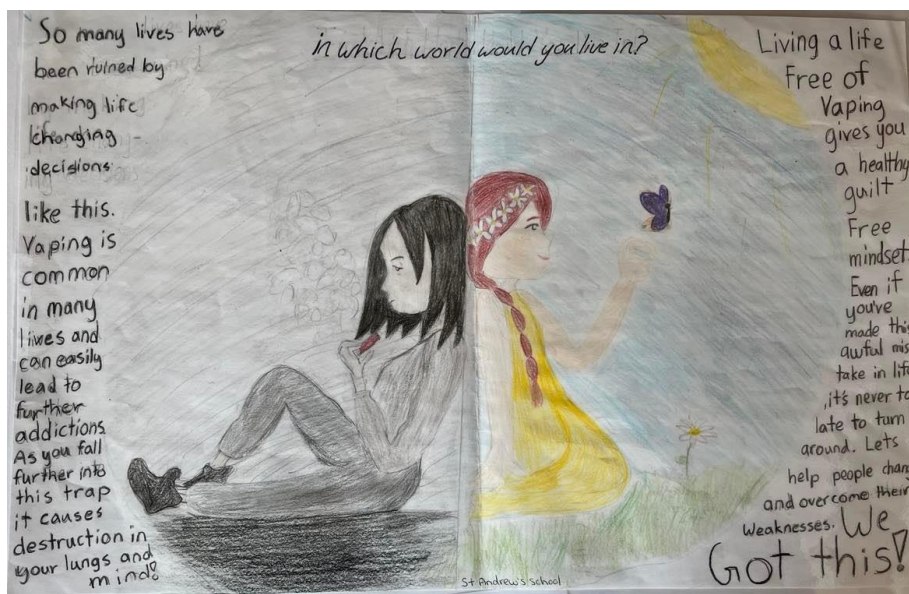

The annual grade 6 Anti-Vaping Poster Contest Winners have been selected!

The Interlake-Eastern RHA Tobacco, Vaping, Cannabis committee was thrilled to see students from across the Interlake participate in our Anti-Vaping poster contest. It provided the students an opportunity to be creative while learning about the negative effects vaping can have on our health. The top entries from each participating school division with the most votes all won \$100 for the students who created the poster, as well as \$200 for their classroom. Each participating school division was also entered in a draw to win \$1400 for the division. We would like to thank all the teachers and students who worked so hard on entering the contest and who continue to educate our residents on the harms of vaping. Check out the winning posters below:

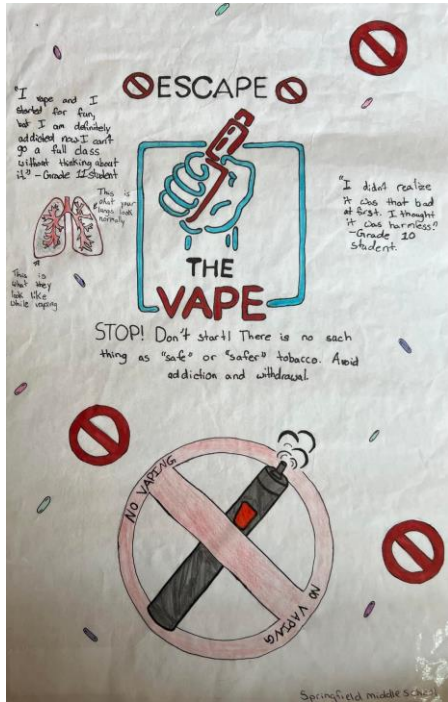

Dr. George Johnson Middle School
