Job Description

Stone Restoration of America the Carolinas, Georgia, Virginia and Tennessee's leading stone and concrete repair & restoration company is looking for a self-driven, eager and motivated individual to fill an immediate opening as a Field Technician 1 at our Charlotte office.

Stone Restoration is a family owned business that provides restoration and waterproofing services for commercial buildings as well as structural and waterproofing repairs on parking decks. From historical structures to newer construction, we ensure your facility remains watertight while looking its best. Our technicians are trained to provide complex structural water intrusion repairs while buildings remain occupied. One of our specialties is multi-family exterior restoration and waterproofing with licensed crews experienced in working on such structures. With well over 20 years' experience in the industry we have honed our skills to be the best in the business. You will not find a more effective and efficient restoration and waterproofing contractor in the South East.

Role Responsibilities:

This role is a field position and will report directly to the designated foreman. Duties of this role may include caulking, window glazing, waterproofing, wall and floor coatings, structural concrete repairs, masonry restoration, stucco repairs, tuckpointing brick/stone laying. Experience in some or all of these and a willingness to learn is preferred. Advancement is based on continued progressive field production, completion of company training and programs.

Along with a great work environment we also offer a Mentor/ Mentee program, Leadership Development Program and a continuing education program for further advancement within the company.

Travel is required
