

Statement provided by Joe Caudle to Parents for Kids Health:

My name is Joe Caudle and I am a candidate for the Davie County Board of Education. I would first, like to thank, **Parents for Kids Health** for the opportunity to share my motivations and reasons for seeking a position on the BOE.

I am a father, a papaw, and a Marine Corps Veteran with thirteen years of military service to my country. I have been a member of Farmington Baptist Church for fifteen years. I have been a baseball, softball, and football coach. I have been married to my wife Angela, for twenty-nine years. We have been blessed with two wonderful children and three grandsons.

I love Jesus, my family, and my country in that order. I am very concerned about the direction of our country. We at this moment have no way of gauging the long-term effects that these last few years will have on our children's Physical, Mental and Spiritual Health. These children have had to live a life that I cannot even fathom at their age. Because of the government propaganda machine, they have been forced to wear a mask, for a virus that has almost a 0% chance of affecting their long-term health in any way. A mask that has a 0% chance of stopping a virus. Our government even hid the clinical studies that proved that the mask was ineffective at stopping this deadly virus with a 99.9% survival rate (sarc). Their rights to move about freely and to participate in social and athletic activities have been restricted through quarantine and self-isolation. All because of a test that has been proven faulty and easily manipulated; Since when do we quarantine healthy people in this country! The full-on press by our government overseers and fake news media to censure, cancel and ruin people's lives, simply because they dared to question the state-approved narrative is abhorrent and un-American, along with their lies and the overwhelming evidence disproving their narrative.

One must then ask themselves, if it wasn't about health and stopping the spread of a virus, then why put our families and our country through this horrible ordeal. For myself, the answer that I come up with is the lust by our high and mighty elites for Control, Power, and Greed. Meanwhile, your family and mine pay the price, by having our freedoms and liberties trampled upon and shredded. I have seen and witnessed the cost of freedom, often the purchase price for the freedoms that our families have enjoyed and selfishly taken as a birthright is often purchased with the blood of others willing to stand against those that wish us harm. If we continue to keep going down this path of simply surrendering our freedoms and liberty for a false sense of security, we will soon find ourselves not as Citizens, but as Subjects at the mercy of power-hungry bureaucrats.

My other major concern is our centralized government-run Public Education system. I know without a doubt that Davie County is blessed with God-fearing teachers who have a desire and passion to not only teach but to mold our younger generation into capable, well-adjusted, productive citizens. I am also aware of bad teachers that don't need to be anywhere near our classrooms. Academia preaches diversity and inclusion, but their actions and the facts prove otherwise. It is a fact that professorships in our colleges and universities have an overwhelming representation (an astounding 17:1 ratio) of one party, the Democrats. Most of these Democrats have socialist and communist leanings. All you need to do to prove this point is to simply look up these professors and teachers to see for yourselves the socialist and left-leaning politicians that they donate money to. The opposite of what they preach is what's really going on. The lack of diversity and different points of view leads to biases and indoctrination.

These biases and indoctrination then get filtered down into our public schools, where our children are then indoctrinated with their insane ideology. Dangerous and divisive ideologies such as Critical Race Theory, which seeks to turn white and black children against one another by branding one group as the oppressors and the other as victims should have no place in our classrooms.

I will admit that I don't know everything. There are many critical issues that the School Board must address, such as budgets, funding, taking care of staff and faculty, keeping the doors open and the buses running. I have confidence in those matters, but the School Board also needs a sheepdog to guard the flock and keep the wolves away. If elected, my primary goal will be to protect our children from un-American, divisive and radical political ideologies and philosophies that seek to destroy our Nation, culture, and way of life. If you share my concerns, I ask for your support and your vote on May 17.

If you would like to inform yourself about what I stand for, I can be found on Facebook @ [Joe Caudle for Davie County School Board | Facebook](#) or my website [Joe Caudle | Davie County School Board | Vote May 17th | North Carolina \(caudlefordc.com\)](#)

God Bless & Semper Fi

Joe Caudle
