

## RECENT STATE OF FLORIDA GOVERNMENT ACTIONS

**Reemployment Support** | Governor's Executive Order (EO) 20-93 | The Governor has taken action to support the Department of Economic Opportunity ("DEO"), which has been overwhelmed with demand for its services in responding to those that have lost employment due to various local and state executive orders limiting movement and commerce as a result of COVID-19. The order directs all executive agencies to coordinate with the Department of Management Services and DEO to support the DEO's operations. Other agencies will devote available manpower to increase capacity for internet and call center support for citizens. Additionally, the DEO is directed to accept paper applications and use various local Workforce Development Boards to accept paper applications. The DEO is also directed to contract a third party vendor to collect paper applications. All of these efforts are to assist in the DEO's reemployment assistance programs.
