

RECENT STATE OF FLORIDA GOVERNMENT ACTIONS

Recommended Business Strategies | [Florida Health Businesses and Employers](#) | As businesses continue to plan around the current public health crisis, the Florida Department of Health has issued basic guidelines for businesses during this period of uncertainty. The guidelines include how to prevent workplace exposure, as well as guidance on planning considerations if the outbreak becomes more widespread. Additionally, the Department has provided several outreach materials that employers can post in their workplace to help inform employees about best practices to mitigate the spread of disease.
