

RECENT STATE OF FLORIDA GOVERNMENT ACTIONS

Recreational Boating Restrictions | Florida Fish & Wildlife Conservation Commission Executive Order [20-09](#) | In an effort to enforce social distancing guidelines issued by President Trump and the CDC, the Florida Fish and Wildlife Conservation Commission issued an executive order providing restrictions for recreational boating. Owners of recreational vessels in all of Florida must: (1) limit occupancy to no more than 10 persons per vessel, and (2) maintain a 50-foot distance between any other vessels while anchored or moored (or, while underway and rafted together). The order excepts approved mooring fields, marinas, and permanent wet slips.
