

Housing Needed!

Hello alumni!

Over the past few years, we have increased the availability of rotational experiences outside the Iowa City area. We believe that a great experience and potential future employment for our students should not be hindered by housing limitations.

Would you have the ability to offer housing or know of any trustworthy connections who could provide housing for students during their rotations?

Andrew Dao is the Coordinator of Clinical Program Services. He is responsible for overseeing the preparation and maintenance of all compliance requirements, as well as facilitating housing arrangements before and during the clinical year. You can reach out to him at any time if interested.

Your support would be immensely valuable and help both current and future students of our program.

Thank You!

Our clinical year team could use additional housing in the following areas:

Location	State
Des Moines, Ankeny, Ames Area	IA
Burlington, Ft. Madison, Mt. Pleasant area	IA
Waterloo-Cedar Falls area	IA
Davenport-Galena area	IA, IL

HOUSING FAQ + ANSWERS

Housing Requirements

What are the housing minimums?

Students should have at least a private bedroom and a bathroom that they can use (private or shared)

Duration

How long would a student need housing for?

Depending on the rotation, it can be anywhere between 2-6 weeks.

Reimbursement

How much should I charge the student?

We recognize that not all housing can or should be free, but generally, we recommend that housing costs range between \$50 to \$100 per week.
