

USA500™

Universal Starter Additive

USA500™ Features

- Designed as an additive for most all forms of liquid fertilizer starters
- Provides key nutrients - EDTA chelated zinc
- Proven phosphate protection in the formulation
- Protects yield potential and profitability
- Excellent handling and storage properties allow for premixing for storage over winter months

Guaranteed Analysis **5-0-0**

Total Nitrogen (N) 5.0%
Zinc (Zn) 6.0%

Use Rate:
48 oz/A

USA500™ Benefits

- Promotes early season root growth, vigor and better overall plant structure
- Enhances and protects nutritional components of applied starter fertilizers
- Helps release phosphate tied-up in soil
- Increases availability of nitrogen, sulfur and other nutrients in the soil
