

Proprietary blend of ammonium sulfate, surfactants, polymers, crop enhancement components and antifoam.....100%

### What is ENLIVEN?

Industry first yield increasing adjuvant that delivers premium deposition and retention technology, superior water conditioning and ultra efficient surfactant package.

- Fueled By Yield Burst Technology
- Industry standard deposition, retention and coverage technology
- AMS based water conditioning
- Ultra efficient surfactant package for increased coverage and cuticle penetration

### What does ENLIVEN do?

ENLIVEN Fueled by Yield Burst Technology has proven yield enhancing components in a premium adjuvant package that improves tank mix performance.

### Mixing Instructions

**IMPORTANT** - Add ENLIVEN to the spray tank first before adding any other tank mix product, unless the tank mix pesticide(s) or additives direct otherwise.

### Mixing Order

1. Fill tank 1/2 full of water and begin agitation.
2. Add the required amount of ENLIVEN while agitating.
3. Continue filling spray tank with water and add the tank mix components as directed on the pesticide label(s).

### Rate

Rate: 16 oz/Acre

### Package Size

2x2.5's  
250's

36/pallet  
Mini-bulk

180 gallons  
250 gallons

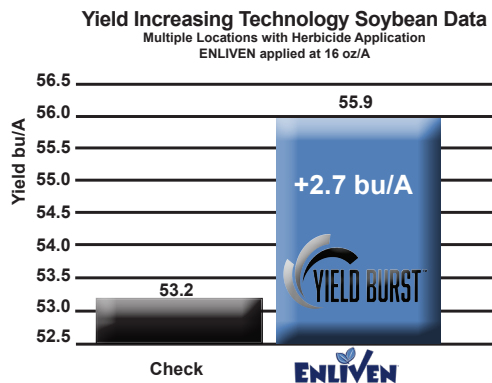

**IMPORTANT:  
ALWAYS READ AND  
FOLLOW LABEL  
INSTRUCTIONS.**

**Industry First Yield Increasing Adjuvant That Delivers Premium Deposition and Retention Technology, Superior Water Conditioning and Ultra Efficient Surfactant Package**

### Fueled by Yield Burst Technology:

- Plant derived crop enhancement components selected to drive multiple plant functions resulting in improved yield potential
- Patent Pending process to maintain crop enhancement component integrity and maximize plant utilization
- Unique adjuvant with yield promoting technology

### Industry Standard Deposition, Retention and Coverage Technology:

- Proven deposition and retention technology
- Maximized canopy penetration and coverage aid
- Blended easy to use water soluble polymers for superior application performance

### Ultra Efficient Surfactant Package for Increased Coverage & Cuticle Penetration

- Rapid plant cuticle and membrane penetrating surfactant blend
- Improves uptake of applied pesticide
- Maximizes coverage, wetting and spreading

### AMS Based Water Conditioning

- Solves antagonism in the tank
- Contains ammonium ions for superior ion trapping
