

Invite Jesus to Your Conference or Council Meeting

Wouldn't it be great if Jesus could be physically present with us in our Conference or Council meeting? Think about it. We pray to Him, we ask Him for His guidance. We know that He is divinely present in all we do. But what would it mean to us to have Him physically present as well. It is possible.

In years past, the recommendation for all Conference and Council meetings was to light a candle at the beginning of the meeting and snuff it at the end. The meaning was that our whole meeting was a prayer we offered to God. Fire regulations have limited this process today. However, we can have Jesus present with us. It can be done electronically.

Through technology, this blessing is available to all Vincentians. We can bring Him into our meeting at any time of the day or night. It is not simply having a picture in front of us. It is viewing a live presentation of the exposition of the Blessed Sacrament. Marytown in Libertyville, IL has a live stream presentation of the exposition of the Blessed Sacrament. This is available 24 hours a day, seven days a week. Since it is a live presentation, it is as if you are actually present there in the Marytown Chapel; and vice versa, it is as if Jesus is coming to you live from the Marytown Chapel.

Here is the simple process for this to take place. Have your Spiritual Advisor (or one of the other members) use their computer, I-pad, or smart phone to make the connection. Of course, depending on how long the meeting is to take place, you should have your equipment plugged in rather than drain the

battery. Simply click on the link below and Jesus will be there with you for as long as you want, a few minutes or a few hours.

Take advantage of this opportunity to spend some valuable time with our Lord.

**On June 27, 2026, Our Lord was present in the Blessed
Sacrament
at the ADC Board Meeting and will be present in the future.**
