

**The Chatham Synagogue is committed to using sustainable, recyclable materials. We see that commitment as a way to honor our traditions and teachings:**

*When God created Adam, God led him around all of the trees in the Garden of Eden. God told him, 'See how beautiful and praiseworthy are all of my works. Everything I have created has been created for your sake. Think of this and do not corrupt the world; for if you corrupt it, there will be no one to set it right after you.'*" (Ecclesiastes Rabbah 7:13)

**Please be mindful of this commitment if you bring any paper goods or disposable utensils into our Synagogue.**

**Thank you.**
