AWARD-WINNING MEAT ALTERNATIVES FOR HEALTH FOODIES

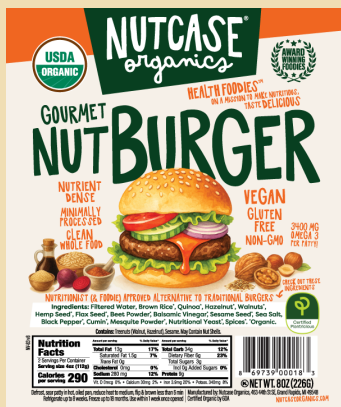

Introducing a unique nutrition-forward, whole food
gourmet product line for your plant-based set

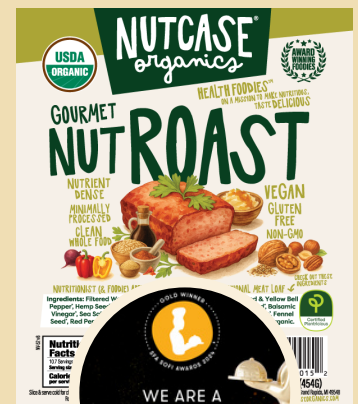

A NUTRITIONIST (& FOODIE) APPROVED SOLUTION FOR CONSUMERS LOOKING FOR TRULY HEALTHIER OPTIONS FOR THE FOODS THEY LOVE

As Board Certified physicians and life-long foodies, when we said we were going to start a business to create healthier, nutrition-forward, gourmet meat substitutes made from whole-food plant-based ingredients, including tree nuts, while making them taste so good that even foodies would love them; they said we were **NUTCASES**. That name stuck, and so has our mission.
