## Meet the SBA Export Finance Manager for New England Region – Joe Raycraft

---

We would like to introduce you to SBA's Export Finance Manager for New England, Joe Raycraft. As Export Finance Manager, Joe works to promote SBA's export loan programs through direct outreach to lenders and small businesses throughout the region. His background in commercial lending affords him a strong understanding of the financing challenges that small businesses face and allows him to act as a strong resource and advocate for the small business community.

The SBA offers three export loan options to support international trade with loan sizes up to \$5 million and are available to both existing exporters (direct & indirect exporters) and those small businesses that are interested in breaking into global markets. Based in Hartford, contact Joe to set up a one-on-one virtual meeting to discuss your company's specific export financing needs and the options that are available to you. He can be reached by email [joseph.raycast@sba.gov](mailto:joseph.raycast@sba.gov) or by phone 860.573.9150.
