PCI DSS WORKSHOP JUSTIFICATION TOOLKIT

By now you already know that at the Treasury Institute for Higher Education Annual PCI DSS Workshop you can discover peer-tested ideas, learn to innovate, and make valuable connections with other practitioners and suppliers to successfully tackle the challenges and opportunities facing you and your campus. But, how do you share the value of this event with your supervisor in order to help justify your attendance? Below is some helpful information.

General Tips

Here are things to consider to justify the travel and training expense:

- Focus on what you will specifically bring back to your organization as return for the investment.
- Offer to prepare and deliver a short presentation and Q&A to your colleagues to share what you learned. That way others in your unit will get the benefits of your attendance, too.
- Share the syllabus and speaker handouts with your colleagues. As an attendee, you have unlimited access to materials posted by speakers.
- If you are working to obtain or maintain a professional designation remind your supervisor that this is a great way to earn CEUs.
- Be ready with a plan that shows who will cover for you while you are attending the Workshop.

Expenses and Benefits / Justify Your Attendance

To propose an allocation of resources for attendance, you need to understand the expense and the expected return on investment. This provides some easy-to-use tools to help you calculate the investment and identify your return.

UNDERSTANDING YOUR WORKSHOP EXPENSES

Workshop expenses are affected by a number of factors and to justify expenses you need to calculate what those expenses are and develop a cost estimate for attending. Below are some expenses to include in your estimate.

Workshop Registration
Lodging
Transportation - airfare or mileage reimbursement
Cab Fares and/or Parking
Meals per Diem
Gratuity/Tips

UNDERSTANDING THE BENEFITS

Many benefits from Workshop attendance are hard to quantify and experts agree that the top benefit of Workshop attendance is networking value. Where else can you find so many contacts facing the same issues as your organization?
When you propose the Workshop for approval, it's best to focus on what you will specifically bring back to the organization as payback for the investment. Examples are listed below.

Session content. List sessions that have particular relevance to your work. These sessions might identify tools, technologies or processes.

Vendor contacts. Identify vendors you wish to meet with to discuss products or technologies you use or are evaluating for future purchase.

Best practices. List sessions that will discuss best practices used in the industry.

Training. Identify sessions designed to learn a special skill and/or help you overcome current or future challenges?

QUANTIFYING THE BENEFITS

To effectively justify the Workshop, you need to clearly articulate the connection between your organization's knowledge requirements and the Workshop program. Do not assume that your manager will be able to automatically make those distinctions. Below are some Workshop benefits to include in your proposal.

- Networking Opportunities
- Discuss Industry Trends
- Learn Best Practices
- Discover Current Technologies
- Future Technology Exploration
- Discuss Current Processes
- Future Process Exploration
- Meet Current and Future Vendors
- Teambuilding
- Continuing Education Credit

CONCLUSION

Provide the specific knowledge benefits and expenses your manager needs to decide the value of your proposal for attending the Workshop. Express your desire to learn more about the industry and grow in your profession.
