### **NPS Corp. Appoints Michael Jansen President of its Towel and Tissue Division**

Green Bay, WI, August 10, 2020 – NPS Corporation, a leading company in the Away-From-Home Towel and Tissue and Spill Control Industries, announced that Michael Jansen has been appointed President of its Towel and Tissue Division.

“Having Mike oversee our Towel and Tissue Division reflects my strong confidence in Mike’s ability to continue our fast growth and take this business to the next level which is especially important as we start to come out of the pandemic” said Andy Hetzel, Jr, CEO of NPS. “Mike has a long history of success in roles of continuously expanding responsibility in the Towel and Tissue Industry, both since joining NPS Corporation in 2015 and also at Essity (formerly SCA) for 13 years prior.”

“I am extremely humbled and honored by the trust Andy has placed in me to drive the next round of business growth for the company he founded 24 years ago,” Mr. Jansen stated. “Our team will be sales driven, customer focused and responsive to the needs of our customers. As we begin to come out of the pandemic it has never been more important to be innovative and highly responsive to our distributor partner needs. We will be relentlessly passionate about this.”

Founded in 1996 in Green Bay, WI, NPS Corporation is privately held and operates two divisions: One division focuses on Away-From-Home Towel & Tissue Products and a second division is focused on Spill Control and Filtration Products. The Towel & Tissue Division has facilities in Green Bay, Wisconsin, Cudahy, Wisconsin, and Lenoir, North Carolina.
