

APPLICATIONS IN PDIS

THERE'S A NEW WAY TO START AN APPLICATION IN PDIS

Applying for a credential, qualification, or to be an approved trainer just got easier. Starting on September 20th, your PDIS Credentials & Qualifications page will look a little different.

The “New Application” button has been replaced with a list of applications at the top of the page.

- You can use these to quickly view all available applications.
- Each application has an info bubble with a quick summary that explains its purpose.
- Select the application name to go to a page with more information.
- You will no longer see application versions (initial, renewal, and more). The PDIS will review your past records and send you to the right version of the application.
- If you don't want to start a new application, you can Collapse All or View Active Approvals to see your active credentials, qualifications, and approved trainer records.

The Colorado Department of Early Childhood hopes these changes make it easier to find, access, and use PDIS applications as you grow your early childhood career. The CDEC welcomes feedback on how to improve the PDIS. Please share your thoughts with the CDEC [HERE](#).
