

Can You Build A Cranking Elevator To Lift A Heavy Load?

Group Name:

Brainstorm:

Sketch your idea for the structure:

Reflect:

Did a problem arise while building?	How was it fixed?
1.	
2.	
3.	
4.	

Final Thoughts:

Did the elevator make it all the way up and back down with an apple? What changes could you make to make the elevator stay up longer or hold more weight?
