

INTERNATIONAL SOCIETY  
FOR DISEASE SURVEILLANCE

**Nominee:** Brian Dixon

**Statement of Interest:**

I would like to be considered for the ISDS Board. I've been a member of ISDS for several years, and I chaired the annual conference in 2016. I really enjoy my time at the conference and interacting with the many great colleagues I've met through ISDS. I feel like our small but mighty community is making a big impact on public health practice in our respective jurisdictions. Through service on the Board, I hope to provide the organization with direction to expand its reach, ensure sustainability of the great programming it offers, and develop new services to meet members' needs. My connections and work in the public health informatics community should be an asset I can bring to the Board to establish or expand partnerships with other public health oriented associations.

You can find my CV attached.

Let me know if you have any questions about my submission.

Regards,  
Brian
