INVITATION

Conference Chairs

Ali Abas Wani
Food Packaging & Shelf Life

Veslemøy Andersen
Global Harmonization Initiative

It is with great pleasure and excitement that we invite you to the first edition of the '**Food Contamination & Traceability Summit**', taking place on 26-27 May 2020 in Garching, Munich, Germany. The summit is co-organised by Acad Indus International Conventions and Global Harmonization Initiative and endorsed by IUFOST, EFFOST, EHEDG, ISEKI, European Chemical Society, Moniqa Association, progroups, and GMV Dutch Food Systems.

The inaugural is bringing together the key food safety stakeholders to transform and enhance food safety through a better understanding of the food contaminants, their sources, routes, prevention and control in a food chain to offer better public health safety to the consumers. The key participants include scientists, professors, food safety professionals, consultants, regulators, testing and validation professionals and decision makers from directors to managers working in food and allied sectors.

Opening with a morning of plenary sessions addressing the key themes driving food contamination and food safety trends, the programme is packed with technical tracks addressing contamination sources, routes, prevention, control, and regulatory compliance in food chains. Alongside the content-rich programme, there is plenty of time for interaction during the refreshment breaks, the networking sessions and personal meetings during the summit.

Join 200+ professionals for 2 days of networking and exchange of knowledge to get an update on the latest trends and developments on food contamination and traceability.

We look forward to seeing you in Munich, Germany

Yours sincerely,
Scientific Committee Chairs

Dr. Ali Abas Wani
Dr. Veslemøy Andersen

CONTAMINATION & TRACEABILITY SUMMIT

Food contamination may arise from the environmental or agricultural practices or even during production. Contaminants pose a major threat to consumer health and therefore the food chains must be protected to ensure that the food placed in the market is safe to consume. It shall not contain contaminants beyond permitted levels and the preventive and control measures must be in place to avoid the food safety hazards.

The summit is co-organized by **Global Harmonization Initiative** and **Acad Indus International Conventions** to discuss and deliberate on the contaminants (physical, chemical and biological), contamination routes, prevention, analytics, regulatory practices and traceability. The summit is expected to be well attended by food safety professionals, scientists, academicians, regulators, global leaders and decision makers to deliberate on new research, challenges and solutions to the present and future aspects of contamination, analytics and its traceability in food chains. The summit will be a big boost to the start-up companies to showcase their products and success. The summit also offers selective oral slots from the abstracts received through an online submission system, we encourage you to submit abstracts to present your research in oral and poster formats.

WHY TO JOIN THE SUMMIT?

LEARN

- Learn from expert speakers
- Food safety experts
- Regulatory professionals etc. on the food contamination, prevention control and more...

SHARE

- Experiences, problems and findings
- Case studies
- Methods and solutions
- Products & technologies

NETWORK & DISCOVER

➤ Experts	➤ Solution providers
➤ Professionals	➤ New knowledge
➤ Analysts	➤ Business partners

SCIENTIFIC & ADVISORY COMMITTEE

Roland Poms
MoniQa Association

Andrew Fearne
University of Kent, UK

Hamit Koksel
Hacettepe University, Turkey

Amauri Rosenthal
Embrapa, Brazil

Johanna Vilki
Natural Resources Institute Finland

Folake Henshaw
University of Agriculture Abeokuta, Nigeria

Hamid Ezzatpanah
Islamic Azad University, Iran

Hanson Arthur
SNV Int. Dev. Organisation, Ghana

Jamuna Prakash
University of Mysore, India

Joe Regenstein
Cornell University, USA

Umezuruike L. Opara
Stellenbosch University, South Africa

María Soledad Tapia

Marcel Zwietering
Wageningen University & Research, Netherlands

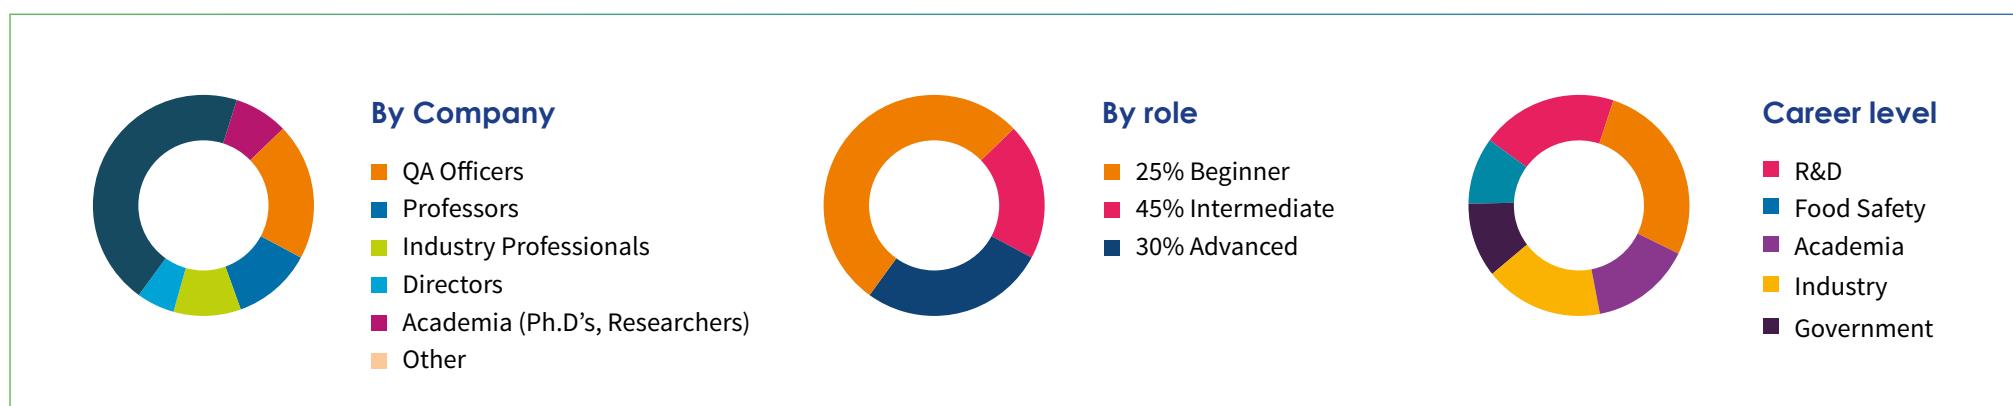

DELEGATES TRAVEL FROM 50+ COUNTRIES IN OUR EVENTS

TOP REPRESENTED COUNTRIES

1	Germany	12	Brazil	12	Malasiaya
2	Ireland	13	Poland	13	United Kingdom
3	Finland	14	Australi	14	Israel
4	Denmark	15	Belgium	15	South Africa
5	Portugal	16	Turkey	16	Netherlands
6	Russia	17	Mexico	17	Norway
7	France	18	Lithuania	18	Thailand
8	Spain	19	China	19	Australia
9	Italy	20	Taiwan GRC	20	United States
10	Serbia	21	Japan	21	Greece
11	Switzerland	22	South Korea	22	India

WHO WILL YOU MEET?

WHY YOU SHOULD ATTEND?

An International Network:

- Meet global visionary leaders
- Professionals from academia and industry across the disciplines from around the world.
- Make new business and professional connections.

Hear from the Experts:

- The summit speakers are global leaders and peers in their own field of expertise.
- Hear the current and practical information.
- Sharpen your skills by active participation in sessions of your interest.

Network and Connect:

- Meet and exchange ideas with professionals from across the world during session breakouts and social programme.
- Make lasting connections with like-minded and influential professionals from 50+ countries.

Unique Opportunity:

- An international event that will be held once in two years that provides in-depth knowledge and information on new trends in food contamination, analytics & Safety.
- Learn new findings, trends, programs and projects.

Present your work:

- Present your research and experiences with a global audience and make an impact in your career.
- Discuss complex cases and right approach to control the contamination

Spread the Impact:

- Share the ideas and knowledge with your team and make an impact and change in your organisation.
- Gain inspiration and understand the right methods and approach for industrial use.

IMPORTANT DATES

➤ Abstract submission deadline	10 Feb 2020
➤ Author notification	Continuous
➤ Opening of registration	10 Oct 2019
➤ Earlybird registration	30 Jan 2020
➤ Standard registration	25 March 2020
➤ Late registration	15 May 2020
➤ Summit dates	26-27 May 2020

ENDORSED BY

PRELIMINARY PROGRAMME

Conference Day-1 | Tuesday 26 May 2020

08:00 - 8:50	Registration & Welcome	11:45-12:05	Safety evaluation of food additives and contaminants on human health
08:50 - 9:20	Welcome address & summit opening Huub Lelieveld, Global Harmonization Initiative, Netherlands	12:25-13:25	Lunch Break/Poster Session
9:00 - 9:20	Food safety & economy	13:25-13:45	Review of polycyclic aromatic hydrocarbons contamination in food products and their health hazards
9:20 - 9:40	Sources of contamination in food	13:45-14:05	Migration from food contact materials
9:40 -10:00	Chemicals in food: an update on the chronic health risks for the European consumer	14:05-14:25	Responding to food contamination incidents: principles and examples from cases involving dioxins
10:00 - 10:20	Risk ranking of food-related hazards	14:55-15:15	QuEChERS-based extraction for detection of pesticides
10:20 - 10:45	Tea & Coffee break/Networking	15:15-15:40	Coffee & Tea Break/Poster Session
10:45-11:05	Physical contamination of food with emphasis on plastic residues	14:55-15:15	Heavy metal contamination of animal products
11:05-11:25	Toxic contamination of nutraceuticals and food ingredients	16:00-16:20	The impact of processing on heavy metal of Tuna fish
11:25-11:45	Food contamination caused by crop protection agents and chemical fertilisers and their long-term effects on human health	18:30-21:30	Social Evening & Networking Dinner

PRELIMINARY PROGRAMME

Conference Day-2 | Wednesday 27 May 2020

09:00-09:20	Detection of Contaminants	12:25-13:25	Lunch Break/Poster Session
09:20-09:40	Microbial contamination, prevention, and early detection in food industry	13:25-13:45	Detection of food-born allergens with aptamer-based biosensors
09:40-10:00	Listeriosis outbreak in Spain (or ... and South Africa)	13:45-14:05	Control of the contamination of process water
10:00-10:20	Emerging challenges and foodborne pathogenic bacteria	14:05-14:25	Can a 'green' label certification 'cleanse' farm produce of potential contamination
10:20-10:45	Tea & Coffee break/Networking	14:25-14:45	Traceability - a tool for improving transparency and confidence in the food chain
10:45-11:05	Overview of the mycotoxin problems in the world	14:45-15:05	Tracing insects that are intended as food
11:05-11:25	Mitigation of the mycotoxin problems	15:05-15:30	Coffee & Tea Break/Poster Session
11:25-11:45	Foodborne viruses: detection, risk assessment, and control options in food processing	15:30-15:50	Monitoring food authenticity
11:45-12:05	Nanomaterial-based biosensors for detection of pathogenic virus	15:50-16:10	A review of organic vs. conventional food
12:05-12:25	Hygienic design of food factories	16:10- 16:30	Reducing antibiotic residues in animal food

REGISTRATION FEE

Early bird 30 JANUARY 2020		Standard 25 MARCH 2020	Late 15 MAY 2020
Company	€900	Company	€1000
Academic/Government	€550	Academic/Government	€650
Academic Member	€500	Academic Member	€600
Student	€400	Student	€450
Gala Dinner	€50	Gala Dinner	€50

TERMS & CONDITIONS

The regular registration fee will include:

- ✓ Access to all scientific sessions, workshops, seminars, vendors seminars and other satellite events.
- ✓ Access to the poster and exhibition area
- ✓ Conference kit (name badge, conference bag, conference documents, certificate of participation, certificate of presentation on request).
- ✓ Final programme
- ✓ Coffee/Tea breaks
- ✓ E-book of abstracts
- ✓ Buffet luncheons
- ✓ Networking/conference dinner not included (available separately and can be opted during registration).

Please note that your registration is confirmed only once the payment is received by us.

VENUE

The first Food Contamination & Traceability Summit will take place at:

Bürgerhaus Garching

Bürgerplatz 9, 85748 Garching b. München, Germany

📞 (089) 320 89-136/137

✉️ vermietung-buergerhaus@garching.de

ACCOMODATION

For accomodation, please see below the nearby hotels in the Garching:
