

September 9, 2020

The Honorable  
United States Senate  
Washington, D.C. 20510

Dear Senator,

On behalf of the hardworking American farmers we represent, we are writing in support of S. 4054, the Grain Standards Reauthorization Act of 2020. S. 4054 was favorably reported out of the Senate Agriculture Committee on June 24<sup>th</sup> via voice vote and would reauthorize the Grain Standards Act (USGSA), which sets the framework for the functioning of the U.S. Department of Agriculture's Federal Grain Inspection Service. With the impending expiration of the USGSA at the end of September, it is critically important that Congress finalize the reauthorization process. We believe the bill under consideration will maintain confidence in our inspection system, which is a key element of our success in export markets.

The United States' grain inspection system provides certainty to our foreign customers that all U.S. grains and oilseeds have been inspected and certified by an independent agency and provides great value to U.S. commodities, thereby enhancing our competitiveness in the world market. This certainty and reliability have helped grow export markets for U.S. commodities and serves as a significant advantage for U.S. products versus commodities from other origins.

A properly functioning grain inspection system is critical, and we urge Congress to reauthorize the Grain Standards Act this year. Despite the significant impacts of tariffs on exports, U.S. commodities have maintained some competitiveness in the international market in part thanks to the premium international buyers place on the U.S. grain inspection system. Given the current uncertainty in trade agreements and many of the bearish factors working against U.S. farmers, it is critical we maintain one of our key advantages. Our customers, foreign and domestic, see tremendous value in the U.S. grain inspection system, and reauthorization of the Grain Standards Act will ensure this value continues for U.S. grain exports.

To avoid uncertainty and potential disruption of the U.S. Grain Inspection and Weighing system, we urge enactment of S. 4054, the U.S. Grain Standards Reauthorization Act of 2020, before September 30, 2020.

Sincerely,

American Farm Bureau Federation  
American Soybean Association
