SOAR 4 Kids

Summer **O**pportunities, **A**ctivities and **R**esources Expo

Did you know that children can forget up to **three months** of reading and math during the summer? This is everything a child learned in March, April and May!

To avoid summer learning loss sign up for quality summer youth programs!

Summer programs give kids a break from the regular school curriculum, but keep their minds and bodies active with **art projects**, **science experiments**, **field trips**, **sports and recreation programs**, **dance and theatre**, **reading and math games**, and much more! Our community has many options for different types of summer programs - many that are low cost or free!

Wednesday, April 17 from 3:00 PM to 6:00 PM

JB Young Opportunity Center

1702 N Main Street in Davenport

Meet staff from a variety of summer programs in our community. Get help deciding on the program that is right for your child, and how to pay for it. Win prizes.

Sign your children up for programs that day!
