DAVENPORT COMMUNITY SCHOOLS

Dear Parents/Guardians:

The Iowa Statewide Assessment of Student Progress (ISASP) will replace the Iowa Assessments as Iowa's state accountability test for students in grades 3-11. Davenport Community Schools will take the assessment online starting April 29, 2019 for High School students and May 6, 2019 for Elementary and Intermediate School students.

Some of the key differences between the ISASP and the Iowa Assessments include:

- There will be a new test: Language Arts and Writing. This new test is in addition to Reading, Math and Science.
- Only grades 5, 8 and 10 will be tested in Science.
- The test will be administered online.
- The ISASP will not be a timed test.
- During this first administration, results will not be available until early fall 2019.

The grade levels, tests and estimated administration times are provided below:

Tests	Grade Levels	Estimated Administration Time (Minutes)
Reading	3-11	60
Language Arts and Writing	3-11	120
Math	3-11	60
Science	5, 8, 10	60

A website is available for parents and students - Iowa Statewide Assessment of Student Progress. This site shares information about the ISASP, including trainings and practice tests so students can become familiar with the new assessment formats.

If you have any questions about the assessment, please contact your child's building principal or Dawn Anderson Rascher, District ISASP Program Leader, andersonrascherd@davenportschools.org or 563/336-7471.
