

ASHI MEMBER SPOTLIGHT

Sharyn Sawczak, RN, BSHCA, CPTC, CTBS
VP, Clinical Utilization and Laboratory
Operations
NJ Sharing Network

Graduated from: Purdue

How long have you been an ASHI member?

Just became a member in June 2024.

Your first ASHI meeting? My first ASHI meeting was this October! It was memorable since it celebrated the 50th anniversary. It was interesting and I was able to meet more people in the HLA industry!

What made you decide to work in HLA? I have worked in the Organ Procurement field for 18 years. Two years ago, our lab's leadership changed, and I was asked to step in to oversee the lab's business end. This was a great honor, and I was happy to take on this challenge.

What do you find to be the most rewarding aspect of your work? Organ donation and transplantation is the most rewarding field in medicine. Learning the HLA Lab's important role in the process adds a deeper meaning to the miracle of donation.

Tell us a fun fact about yourself: I learned how to spell salpingo-oophorectomy in preschool.
